Volume 2, No. 4

Where are We in Time? Thinking Fresh

Yes, where are we in time? According to the nature of the synchronic order, we are always experiencing a beginningless time sending out its ripples from a point where a pebble has been magically dropped into the Pool of Timelessness. Every 52 years another pebble is dropped into the pool of timelessness of which our sun, Kinich Ahau, Velatropa 24 is the local center point. And on this little planet turning on its axis 365 times as it orbits its star once, the ripples wash across our planet 52 ripples per 52 orbits.

Watching this show from our vantage point in outer space, can we really say it takes "24 hours" for Earth to turn upon its axis? No, not really. There is no clock out there measuring the Earth as it turns on its axis. That is just a mechanized fiction, a part of the hypnotic spell that has kept the human species in its grip for over a millennium now. It is part of the spell which we must now dispel with all due haste. (See previous issue, [NET Minutes](#)). We can identify the current ripple that is subsiding as the Yellow Solar Seed, and as it washes out on the Day Out of Time, Yellow Solar Star, another beam of pure fourth-dimensional consciousness will bathe the Earth, Velatropa 24.3, to be followed by the next ripple of time washing across the orbit for the next 365 days.

The current set of slow-motion time ripples began on Yellow Magnetic Seed, July 26, 1993, the first day of the First Year of Prophecy. On that day a big pebble had been dropped into the Pool of Timelessness and it washed across the Earth's orbit as the Yellow Magnetic Seed ripple, the first of a cycle of 52 ripples. It was followed by six more ripples constituting the Cycle of the Seven Years of Prophecy. Now the ninth ripple of the current cycle of time is washing out, soon to be followed by the tenth, the Red Planetary Moon. Of course, these ripples are currently correlated to a Gregorian calendar date, July 26, as well as a Gregorian calendar year 2002. We have to imagine that one day there will be no Gregorian calendar correlates. Perhaps, it is better to start to think this way now. Think fresh. Following the Yellow Solar Star, Day Out of Time of the Yellow Solar Seed ripple, the next day will be Red Planetary Moon the first day of the year 10 AT - After Telektonon.

The solar-galactic New Year's day always falls exactly five weeks after **Crystal Moon 23, the Navigation Tower, and the day of the Crystal solstice -Summer North, Winter South**. These five weeks may be known as the five weeks of the recapitulation of the fifth force, echoed in the five days that complete the annual orbit following the completion of the eighteenth Vinal, signifying the fulfillment of a Tun of 360 days. It is important to think of Earth's orbit as a Solar Ring, and each ripple as an emanation of this Solar Ring, connecting it without hindrance to the source of the ripple, the sun, the center of a vast stellar Pool of Timelessness.

Actually it was on the New Year's Day White Galactic Wizard, July 26 1987, or the first day of the Year 6 BT (Before Telektonon), that at least two of us first became aware of the ripples of time washing across the Pool of Timelessness. That is to say, the minds of a few had been prepared to begin to experience this set of ripples, the currents and undercurrents of the synchronic order of the Time of Prophecy as they washed across the planetary orbit. These were indeed the ripples of the New Time. As the few minds who had become aware of these ripples fully engaged them as a medium of consciousness, the ripples began to reveal the Law of Time. As the Law of Time became more conscious, the ripples increased in intensity and became accountable through a resonant harmonic cycle known as the Thirteen moon/28-day Count.

The purpose of this Thirteen Moon 28-day count was two-fold. First it was intended to harmonically engage the Solar Ring of Earth (its 365 day orbit) in a consciously harmonic manner which had not been the case since the destruction of the civilizations of the New World and the rise of the 24 hour clock mind.

The second purpose of the perfect harmony of this count was to consciously engage an increasing number of humans to create a mental cross current with the irregular timing frequency which had long

since disengaged the Earth, the humans species and its consciousness from the benefits of the Solar Ring. By the end of the Year 1 BT, Blue Cosmic Storm, and just before the beginning of the year 1 AT Yellow Magnetic Seed, everything was in place for the New Ripple.

On the Day Out of Time concluding the 52nd ripple of the prehistory of the Time of Prophecy, a cycle which began during the dark ages of World War II, July 26, 1941, the fourth dimensional time beam washed across the mind of the messenger. He was now fully prepared to define and surf the New Wave, the Seven Years of Prophecy, the first seven years of the next cycle of 52 orbital ripples or Solar Rings of the Earth.

Catalyzed by the New Cycle, the messenger and his faithful accomplice began the task of awakening the consciousness of the human race into the perfect harmonics of the Thirteen Moon-28-day cycle, the better to engage the Solar Ring. Each planetary orbit (Solar Ring) holds a frequency, while the frequencies of all the planets in relationship to each other create different stages or aspects of a solar-galactic field of consciousness. As the Telektonon prophecy makes clear, the Earth's orbit holds the biotelepathic frequency or third circuit of consciousness along with the eighth orbit, that of the planet Uranus. The Uranian frequency number holds the key: Bode 196, or 28:7. By observing the 28 day cycle thirteen times per orbit, the human consciousness was finally engaging the third circuit connection with the eighth orbit of Uranus.

Earth's orbital frequency, Bode 10, long-co-opted by the Saturnian 100, the basis of the monetary system, and clamped into place by the hexagismal order of twelve, now had a chance of being liberated. By establishing the sixteen as the power of the Cube of the Law, same as Mars orbital frequency Bode16, and adding the sixteen Cube power to the twelve, the Telektonon engaged the Earth's orbit at a Solar Ring frequency of 28(16 +12). This 28 also matched the frequency of the destroyed planet Maldek, Bode 28. Now Earth, Mars, and Maldek were prophetically reengaged by the power of 28(x 13)to the Uranus 196, 28 x 7. The Jupiter orbital frequency Bode 52, misused by the Babylonian Conspiracy to create the aberrant count of the 52 seven day weeks with no day out of time, was now capable of being correctly applied.

Please note: before the end of the first year of prophecy, Jupiter received the apocalyptic bombardment of the Levy-Shumacher comet. By observing the Day Out of Time, the power of the 52 (13x 4) could be liberated and released: The 52 perfect weeks of the Thirteen Moon Solar Ring, could now be in mutual harmony with the 52 perfect years of the Solar Ring cycle calibrated by the 260-day galactic spin, thus creating a massive fractal harmonic resonance so necessary for the healing of the Earth . This was the whole interplanetary redemptive point of the seven years of the prophecy Telektonon.

Year 7 AT ended on the White Resonant Mirror. The prophetic time allotted for the humans to fully engage the Solar Ring through the perfect harmonics of the 13:28 cycle had not fully occurred. The Beast had not been slain and was still roaming free on planet Earth. The Vatican was enjoying its Year 2000 Jubilee as if it had captured yet another millennium, and was prepared to claim the next one. Though the prophecy of Pacal Votan had been sounded, its seriousness had not been heeded by sufficient numbers of humans. The Earth's orbit was still wobbling in the grip of an irregular measure of its Solar Ring and the mercilessness of the illusion that one turn on its axis equals 24 mechanistic hours.

So opened the next spin the eighth ripple of the current cycle of 52 ripples, the Blue Galactic Storm, the first of the four years known as the Harrowing of Hell. **To harrow is an archaic expression, meaning to pillage or to plunder.** The Harrowing of Hell is the time of the unhindered pillaging and plundering of the Earth, for there is now no force that can stop the corruption of the false time.

The new Christian millennium began on Rhythmic 20, January 1, 2001, of the 8 Storm year, on the day White Spectral Mirror. Curiously enough that day is the last day of the cycle of the Harrowing of Hell, Day Out of Time July 25, 2004, the day when the Great Calendar Change is supposed to be in place. So it is interesting that the old New Years day of the year 2001, White Spectral Mirror, had already been synchronically coded as the day the old time would end in 2004.

Yet, it also signaled the end of the Third Millennium. On September 11, 2001, Lunar Moon 20 of the ninth ripple, the Yellow Solar Seed, the old time was fatally punctured. The plundering and pillaging of Hell was now on in full swing.

The second ripple of the Harrowing of Hell is now subsiding and the third one is about to wash over the Earth. Red Planetary Moon.

This will be the year of the great Purification of the Earth. Planetary is the tone of manifestation. Red is the blood of purification of the Earth. The flow of the old time will dissolve into the universal water of the new. The Uranian power of Navigation will steer the Solar Ring ever closer to the full harmonic vibration of the New Time. Red Planetary Moon is Kin 49, predestined number of Revolution. "To set the calendar in order" is the ONLY revolution that will last. And that revolution is now in full swing.

In the Synchronic Order of the 20 Tablets of the Law of Time it will be the sixth year of the sixteen year chronograph, the fulfillment of the fourth seer, St. John of Patmos, inspired author of the Book of Revelations whose prophecies are now being fulfilled. What was unable to be accomplished during the Seven Years of Prophecy will make rapid headway during this coming year, the third year of the Harrowing of Hell. While the pillaging and plunder of the Earth will continue by those bent on their own self-destruction, the power of the Thirteen Moons is finally gathering great steam and pushing forward.

This is both a matter of prophecy and of human survival as it is inscribed in the DNA. 2012 is the alarm. Suddenly the idea of a New Time begins to make sense. And the New Calendar as the passport to the New Time seems like a positive solution, where no other solutions seem to be in sight.

More than a solution, the Thirteen Moon/28-day cycle is the cosmic trigger, it is the registration in the Solar Ring of the perfect harmonic chord in time. It is the evolutionary trip switch to advance the human species from Civilizational Advance into Cosmic Awareness. In this way the Aboriginal Continuity (AC) will be able to be restored again as the Absolute Conservation (AC) of the energy of the biosphere.

The awareness that has been initiated during the year 9 AT, Yellow Solar Seed will be completed in the year 12 AT, Blue Crystal Storm, the completion of a Seed Storm Year Bundle, a complete cycle of four Solar Rings. The year 12 AT, will complete the first year of the Great Calendar Change, following which there will come the two complete Seed Storm year bundles, eight years in all, to establish the CA, Cosmic Awareness, replacing the current CA, Civilizational Advance.

In perfect harmony there are only the ripples of timelessness which are registered as time. The Babylonian conspiracy of the irregular measure and linear count of days and years is an illusion meant to keep us in the grip of a history riddled with insoluble problems. Harmony has no history to keep. Nature really has no problems. Only the humans vex themselves with problems all due to the creation of an irregular mind set rooted in an irregular measure of time. Let the higher magic prevail. May the Dreamspell of galactic harmony wash over this ailing planet and restore it and all beings into the shining splendor of the time of perfect harmony and an equality undreamed of by even the greatest utopian minds.

Eighteen Vinals and the Uayeb

The Thirteen Moon 28-day count is synchronized with the solar count of the Haab. The Haab, consists of eighteen 20 day cycles called vinals which establish the Tun or 360-day (18 x 20 = 360) count used by the Classic Maya to calibrate the Great Cycle of thirteen baktuns. In other words the baktuns are not measured by 365 day years but by the 360 day cycle of the Tun. 400 Tun = 1 baktun = 394 + years. In order to correlate the eighteen vinals of the Tun to the solar cycle , a nineteenth five day cycle is added, the Uayeb. The eighteen vinals plus the Uayeb transform the Tun into the Haab. In the Thirteen Moon 28-day Count, the vinals are perfectly correlated to four overtone chromatics each. Eighteen Vinals = 72(18 x 4) Overtone Chromatics. The Uayeb, then, is the perfect 73rd chromatic which completes the solar cycle and establishes the biomass constant - the harmonic registration in the solar ring which maintains the balance of life on Earth. In the Thirteen Moon count, the Uayeb always begins on the 25th day of the Cosmic Moon, and includes the last four days of the moon plus the Day Out of Time. If you study the Uayeb you will find that the first day is always the same as the New Year's day five years prior. In other words, this year the Uayeb begins on Yellow Overtone Seed, the New Year's day for 1997 which commenced the cycle of the sixteen year chronograph of the 20 Tablets of the Law of Time.

The eighteenth vinal is Cumhu. The vinal are always counted so that the first day is zero and thence numbered through nineteen, the last day of any vinal. The Uayeb is also numbered that way, so that the Day Out of Time is always 4 Uayeb. Cumhu completes the 360 day Tun cycle. The solar meditation for Cumhu is "Located in the correct place where the food of divination is obtained." The Correct place where the food of divination is obtained is the Solar Ring. The food of divination is the correct knowledge of time and of the meaning of time as the harmony of the Earth with all that is. The solar meditation for the Uayeb is "All that is needed to obtain the precious stone." This means that these five days are to be observed consciously and with care for the obtaining of the precious stone is knowing how to close the annual orbital cycle on the Day Out of Time. On this 365th day of the orbital cycle, the precious stone is the fulfillment of harmony in time and the regeneration in timelessness that is meant to occur on that special day. For it is the Day Out of Time when the Solar Ring becomes the precious stone and the food of divination is consumed.

Preparing for Next Year: Elder Futhark Runes and the Aboriginal Continuity

During the four years of the Harrowing of Hell, advanced Earth Wizards have also been doing the practice of Cubing the 24 Runes of the Elder Futhark sequence both on a daily and annual basis. Every Moon the Four sequences of six Futhark Runes each code the six days of the week, the seventh being the day to place the Runes in the Radion Cube. on the 28th day the Runes are then placed in the center of the Earth. The 24 runes are visualized as Coding the 24 psi membranes, six per psi bank plate. By placing them in the inner Earth core as well, the Futhark rune practice synchronizes the psi bank with the inner Earth. The Futhark Rune practice occurs in the four years between the Seven Years of prophecy and the Seven Years of the Mystery of the Stone. Since the Futhark Runes represent the original 24 Runes revealed by Odin(Votan) to his people, by being visualized first in the 24 psi membranes, the master organizing plates of the psi bank, they establish a powerful bond with the Aboriginal Continuity, the power of Absolute Conservation of the terrestrial reservoir of psychic energy - the noosphere itself.

By being placed in the tympanum of the Inner Earth, an interdimensional resonance is established over the four year cycle which offsets the pillaging and plunder of the harrowing of Hell. As more and more humans place their consciousness in the harmonic perfection of the Thirteen Moon-28-day count, this aboriginal resonance becomes ever more powerful, assuring the actual triggering of the noospheric mind of Earth to begin to occur during the Blue Crystal Storm year, the eighth and final year of the eight years of establishing the Aboriginal Continuity (AC). This Blue Crystal Storm Year 12 AT, also establishes the first of the Nine Lords of Time, "Luminous Single White A" whose Solar Ring domain will charge the Thirteen 28-day solar chords of time with an increasing majesty of telepathic knowing among all who are able to maintain the frequency of the Thirteen Moon cycle.

During the Red Planetary Moon year, the third set of Runes - Eihwaz the Cosmic Tree, Rune thirteen to Berkano Fruitfulness, Rune eighteen, will code the Moons as in the previous years. That is, the first six Moons the Runes represent the descending order of the Cycle of Becoming, Eihwaz coding the first

Moon, Perthro the Lunar Moon, Elhaz the Electric moon, Sowilo, the Self-existing moon, Tiwaz the Overtone Moon and Berkano the Rhythmic Moon. The seventh Moon is the void Rune Moon. Then the process ascends as the Cycle of Return from the eighth to the thirteenth Moons beginning with Berkano coding the Galactic Moon and ending with Eihwaz, the Cosmic Tree, coding the the Cosmic Moon.

UR Rune Codon Codes, Kin 49 Red Planetary Moon Year, 2002-2003

I perfect in order to purify
producing flow
I seal the process of universal water
with the planetary tone of manifestation
I am guided by the power of navigation

Red Planetary Moon Year occurs in Warrior Cube Journey position six, World-bridger Power of Death, coded by the twelfth baktun of the Telektonon prophecy, Baktun of the Hidden Seed.

In the 20 tablets this position corresponds to wavespell six, World-bridger, the seat of the Court of Death in the Dreamspell Genesis, as well as to the fourth seer, St. John of Patmos -"death overcome, redemption of all martyrs and witnesses of truth."

For this reason we may expect the climax of the apocalypse of the 12:60 world foreseen by St. John of Patmos in his famous Book of Revelations. This Cube position is governed by the third psi bank plate, the American plate, and the six psi membranes coded by the Elder Futhark Rune sequence 13, Eihwaz the Cosmic Tree, to 18, Berkano is Fruitfulness.

As the sixth year of the Sixteen year Cube of the Law, and the third year of the Oxlahuntiku, the purpose of this year is for the restoration of the garden. This means special exertion in the creation of 13:20 land bases for cultivation of the garden and as intermediate rest points for the caravans.

The four UR Runes that code the four quarters of the year will guide us through this year of powerful purification and transformation - a year to fulfill the revolution of time in our new communities. Let us teach our children well, for as it says in this year's Rinri precept: "The child is an actor playing out on the stage, as it were, the mind of the parents."

First Quarter:

Codon 6, People Apart - Tree Defines Life.
UR Strand One, Way of the Tree.

Here the red Rune shows the tree within the square which represents the four corners of the Earth, meaning that the tree defines the life on Earth. Just as the tree is dispersed throughout the Earth, wherever there is any water or precipitation, so too are the people dispersed throughout the Earth. This is the meaning of the People Apart, that the people are separated from each other in order to establish their many communities on the Earth. Being apart, the people have the opportunity both to cultivate themselves where they are and to establish means of communication to overcome their separateness. In the Codon, the principle of water, the sensory Heart Moon Crystal triplet is below, and its motion is inherently downward. Above is the Creative transmitting telepathic time triplet, whose natural tendency is to move upward, like heaven. So in the tendencies of the two triplets we see that they move away from each other, which also signifies People Apart. So it is a good time to pause and gather one's resources, avoid conflict, and cultivate one's character and community. The tree, no matter how alone or apart from other trees, is still of the great community of trees everywhere on Earth.

Second Quarter:

Codon 14, Wisdom of the People - Conduct Defines the Way.
UR Strand Two, Way of Conduct.

Here the blue UR Rune shows the feminine triangle also enclosed in a square. The feminine triangle represents the flow of wisdom as telepathic knowledge into the receptive mind, which, being open, extends to the four corners of the Earth, hence the square. This shows the Wisdom of the People as conduct that defines the way of relating to each other in the establishment of an understanding that corresponds to the synchronic order of the New Time. In this Codon, the time triplet is now below in

the sensory dynamizing place, while instead of the Moon Crystal, we now have the Fire Sun Crystal in the telepathic position above. The tendency of both of these triplets is to move upward toward heaven. The incorporation of time in the sensory body is true wisdom, while the only space yin line occurs in the fifth place, the place of the ruler. This means that wisdom is selfless and rules through receptivity gathering around it forces of light endowed by knowledge of time. To cultivate this wisdom in all matters and relations is truly how Conduct defines the Way.

Third Quarter: Codon 54 Transcending - Temple Incorporates Telepathy.
UR Strand Seven, Way of the Telepath.

The purple UR Rune depicts the sign of the temple within the square. This means that the principle of the temple established by telepathy now incorporates telepathy that extends to the four corners of the Earth. The temple is the architecture of the synchronic order as it defines our personal and community life. When we incorporate telepathy into the temple of our synchronic life then we establish the principle of transcending the 12:60 conditions which hold our body to the mortal round of desire and death. In the Codon Transcending, we have the sensory Ocean of Joy of the Wizard's Song below, and the telepathic Seed Arousing Energy and Thunder above. This shows the electrical energy of transcendence, rising above or out from a body of water. This is a sign of the mystery of the beginning and ending of all things. Here we must cultivate ourselves more deeply taking care to elevate our minds into the spiritual reality of the synchronic order, while tending to the details of life in the temple in a simple and ordinary way, accepting what we have been given, and being in profound appreciation of the Divine Plan of the Supreme Creator.

Fourth Quarter:
Codon 62 Inner Time - Galactic Octave Defines Evolution.
UR Strand Eight, Way of the Galactic Octave.

Here the violet UR Rune shows an echo of a square within a square enclosing the dot in space of the eternal dawning of creation. In keeping with the tone of the year to cultivate the higher self within a community which supports that, this Rune shows how the inner defines the outer and the outer the inner, which is the way of spiritual evolution, for as the one becomes more clear the other is synergized into greater synchronization. Undeviating is the dot in space at the center, the endless source of creative thought, the basis of all harmonic action. The Codon, Inner Time, is a golden one, that is the space binary letter generates and climaxes, while the time binary letter is the bridge between sensory space and telepathic space. The meaning of the time is a profoundly inward movement that produces an energetic thrust back into space. This is reflected in the two triplets that constitute the Codon: the sensory Keeping Still Meditation Mountain Gate is below, while above, the telepathic Seed Arousing Thunder Energy is released from the Mountain meditation. Note that both the third and fourth quarter Codons are characterized by a release of telepathic energy, while the lower triplets are the binary complements of each other, two time yang lines and one space yin line, Transcending, and two space lines and one yang time line, Inner Time. In this way just as the first two quarters bear some complementary resemblance to each other, even more so do the third and fourth quarters work upon each other to produce a single flow. Transcend, evolve, become the Inner Time of the Synchronic Order NOW!

Cosmic Turtle Moon, Gamma 17,
"My Lineage is the Union of Intrinsic Awareness and the Ultimate Sphere."
12 Cumhu, "Located in the correct place where the food of divination is obtained"
Kin 36: Yellow Planetary Warrior
Solar-bio-telepathic-strand 16.11
Telektonon Prophecy, Fourth Year of Prophecy, 1996-97, Fourth Lost Generation, Red Lunar Earth
7:7::7:7 Third Week, Blue Occult Time Atom, Occult-aphasic, Gamma-Kali,
Pacifying Establishes
Futhark rune, 15, Elhaz is the Act of Making Sacred
Leaf of the Mystery, Elhaz sent from South to North, seals Gamma,
Radion Cube Front, Third eye, Agyan chakra, PNM 15, American Plate Three
Psi Chrono Unit: Kin 154: White Resonant Wizard
White Overtone Chromatic 71: Wizard - Mirror, Galactic Timelessness-Crystal Endlessness Chromatic
White Magnet sent from South to North from/to Yellow Cardinal throat center.

20 Tablets: Annual Chronograph Tablet 5, Quetzalcoatl, Serpent Sex, 2001-2002 Chronograph
Dragon Genesis, Skywalker Wavespell 5, White Northern Castle Court of Death
Chronograph Moon Kin 65: Red Cosmic Serpent, -17 587 - -17,487
Elder Futhark Moon of Ehwaz, Union of Horse and Rider
Ascending Quarterly Codon Rune 61: Inner Space: "Galactic Octave Resounds as Mind"
Stage 12, Year of the Yellow Solar Seed, Second Seed-Storm Year Bundle,
Week 51 Codon Cube, Codon Measuring, Codon 60, "Galactic Octave Limits Space"
third line: yin line, Cube left
Blue Week Three, Proclaim Victory of Prophecy -
Blue Patience Transforms Conduct
Harmonic 9: Planetary output. "Express Intelligence of Manifestation"
Biphasic Codon 32: Mind Enduring, "Binary order defines movement of space"

Dynamics of Time, 16.10: "'Radiosonic compost' transduces into light the remaining third-dimensional entitization. This moment of stellar excitation releases the final evolution of alternative personality fourth-dimensional holon aggregates, 'collective radiosonic mass,' into a pure condition of super to subliminal soul boat transmigratory encounters. Arrival at this condition represents the limit of application of celestial harmonics as the index of evolutionary time vector potentialities within a given holonomic macro-order, galaxy."
