Thematic assessment

Salat Prayer Contact:

From day one we decided to perform this practice 3 times a day (before dawn, noon / zenith, and dusk). We gave good done by generating connection with the divine, by contacting the natural time to wake up before dawn without mechanical means (without clock), gave us a time frame for other practices. This practice strengthened discipline and submission.

Food / fasts:

With no evolutionary food restriction and fasting (Seven Days in the process), we found that our bodies it was used to expand and facilitate cosmic connection and perception of the sacred. At the end of the retreat the physical body is in better conditions in all kin.

The kin participants learned the techniques of live food preparation (food life.)

We mention that 80% of infusions were made with herbs harvested site and 80% of the salads were grown in the orchards of "Tiempo de Brotar".

Tasks group:

Objectives were achieved, they were:

Assembling the basic facilities, perimeter fence to protect the site for animals, leveling large dome platform of practice, building a geodesic dome mini 4 mts.

All activities were carried out as active meditation practice (karma - Yoga)

Reading / Study:

The factors favoring this process were: previous contact and the kin involved with the study material, natural mind meditation before beginning to study ,the natural environment (climate appropriate and natural time).

What ensued was an exponential increase in the understanding and assimilation of information, increase in the cognitive domain.

One of the assimilated important tools is the Synchronotron and UR H Runes as functionals elected four/dimensionals.

Special practices:

* Psycho-Atmospheric: check changing states of psycho-sensory perception versus climate change to perceive them in consciousness.

There was a high psycho-sensory contact through the dance on the 24 membranes psi-ninmboideas (Dance for Land)

- Telepathic Games / Telepathic Memory: the result of transmissions, there were few successes, but these practices led us to understand, know the runes UR A, trails and cosmic features.
- As for the memorization telepathic Matrix 441 were excellent results in most of the participants and good results in the remainder.

*** Planetary Sorcery/ ceremonial magic:**

These were:

Opening ceremony

Merkaba Initiation

Geomancy

Water Temple

Guardians of the Portals

In cuevamiento

Purification with allotropic breathing in water

Ceremonial Clean- chanted water
Day of the Dead Ceremony
Andean Dispacht.

*** Travel through time-space:**

Most kin achieving excellent results and display psychic connection, and can achieve a high conscious telepathic messages that were of great value in retirement, and also after retirement.

The techniques used were: Celestial Harmonics, Telepathic Frequency Index , Time Travel Cube with element 113 Sirius B 52 in the cube.

Synchronization / Cubication:

Composed by:

Pranayams and Solar Mantrams
Cyclical Order of Time Codes
Synchronic Order of Time Codes
Visualization and Psi Bank daily activation
Visualization and Planetary Holon activation
Visualization and Human Holon activation
Visualization –Overtone Pulsar and Color Pulsar activation
Telepathic reception of the north-south red pulse
Cube Building Genetic Order, Plasmic Cube, Bio-psychic Cube and Non-ego Cube.
Tollan Zuvuya Cave initiation
Bolontiku Activation
Visualization of Crystal Heart Planet and its components.
Ejection Circumpolar Rainbow Bridge with allotropic breathing
Visualization and activation of Matrix 441 and the daily Heptad Gates.
Excellent results as a tool to synchronize us, perceive celestial harmonics and harmonize us with the natural time for the day.

Urine therapy:

The participants kins carried out this practice ,can see that after two days of fasting , concentration odor, color and flavor urine was increased

Overall Assessment

Points to consider:

- The coordinator nucleus have need for more technics of dynamization groupal to promote the integration process of the participants.
- It is preferable that the coordinators of the retreat are at least two and preferably male-female.
- It is necessary to make a regulation of internal behavior to be signed prior to retirement income, this would regulate rights and duties of kin during the process, for example, sexual abstinence, total restriction of consumption of psychoactive substances, hallucinogens, alcohol, snuff, etc.
- Make only the proposed practices in retirement.
- Sober and comfortable clothing.

- We made a brief experience with the presence of village children Tiempo de Brotar and feel that was not favorable to the process.
- It is suitable that the experience does not generate emotional ties between the participants (absorption)
- It is appropriate to use the practice of the noble word "noble silence during the entire process.
- Experience shows that the results are optimal if completed within 28 days.
- We also feel that can get things for less time as facilitator of tools to join the process.

Doubts arose as to consult with the foundation:

- Is it necessary to vipassana style sex segregation?
- Is it possible to carry out such temascal purification practices?
- Is it suitable that the organization is by color or family and it is preferable that participants refrain from these activities (cooking, cleaning bathrooms, etc)?
- Considering that this was the first experience of retirement of 28 days we are very happy to report that we could see a gradual stabilization in the time of the emotional body, clarity of dreams, the channel opening reception of cosmic information. A crescendo in the timeless perception and appreciation of the natural rhythmic cycle. The radiance of a subtle psychological well-being permeated the activities, strengthening brotherhood and mental clarity of the imminent presence of the closing of the cycle, strengthening the purpose of the Circumpolar Rainbow Bridge Ejection.
- The study and natural mind meditation ,catalyzed as well as the perception of here now ,the clear internal vision of the next steps on this path of planetary service. A clear guidance of Noospheric mind .Very important factors favored these states were self-discipline, submission and the natural environment isolated from the hustle and mind technospheric self-replicating.

Thank you with deep love for the Great Spirit, ALLAH HUNAB KU, the hierarchies of the Galactic Federation, to intraterrestrial hierarchies of ERKS , to Valun Votan and the Red Queen, our guides and fifth-dimensional beings, the crew of the village "TIEMPO DE BROTAR "all the brothers who supported us in this adventure, MOTHER EARTH, Elementary Devas and invisible guardians in place, URITORCO APU, OVERO APU, ÑUSTA the Twins, all animals of power that accompanied us; Hawks , foxes, mountain cats, hummingbirds, tarantula, spider weaver, lizards, frogs and toads, trout, eagles, vultures, condors, owls and especially Ringo and ourselves for allowing this sacred transformation, that this experience will serve as encouragement for all beings who choose to take the evolutionary leap of the soul.
