

# What is the Role of the Planetary Kin after Galactic Synchronization?

## Anchoring Galactic Culture on Planet Earth

*"Once achieved by a few, a change in consciousness can quickly spread to the whole planet and provide the change in thinking that we need to deal with our problems in a fresh, creative and meaningful way."*

— Valum Votan

Galactic Greetings! I am so happy that this event is occurring! Interestingly, every time I sat down to write something for this event or contemplate the new direction, my mind stream would dissolve and I would "go blank."

Everything is rapidly changing in these 7 Mystic Moons. It is as though Reality as we know it is being erased. We have to open to the new script without preconceptions. Everything must be rethought in a fresh way.

At this time a great uncertainty is gripping the masses. It is up to us to be the anchors for what is coming: Anchors of pure spirit ready to receive the Return of the People of OMA: ORIGINAL MATRIX ATTAINED! We are the Rainbow Bridge; we are the promise of God/dess.

I have been contemplating this event and also working on a 7-year plan of how to move forward with anchoring Galactic Culture on Earth. Simultaneously I have been working on the synthesis for the Cosmic History Chronicles. When I was working on the chapter about Dimensions, I hit a block. Nothing would come (unusual). Then I felt overwhelmed – all the codes swirling around me, flashing all around. This was on kin 112. I heard Valum Votan telepathing, LET GO OF EVERYTHING!!

So I went to lay down and surrendered all my energy to the Source to see what was required next. I was exerting my whole being, searching for direction. Then I entered some type of vortex, which I understood as the 7th dimension torroidal speaking tube of God.

The seventh dimension is the mirror-less resonator and the hinge between dimensions 1-6 and 8-13 (see CH Vol. 2). Dimensions 8-13 are known as the mirror dimensions of the first six. They are radially paired so that the third dimension corresponds with the 11th dimension.

Before I knew it, I was in what appeared as the direct mirror dimension of this one. In this dimension everything had a slowed down quality. While time was very slow, it was also infused by a warmth and all encompassing love. I saw myself. I was reading the same book that I had just been reading (Yoganandas' The Second Coming of Christ).

I watched myself, and saw what happened to me prior to lying down. I saw the codes swirling and watched my body become overwhelmed. Only in this dimension everything made sense, my retention and understanding was at a heightened state. A feeling of wholeness encompassed me. I also realized that this 11th dimension (parallel to 3rd dimension) is the dimension of the

Holomind Perceiver 441 cube matrix.

I then heard whispers, whispers ... and saw: WE ARE ALL THERE! (Yes YOU/WE/US). We are there simultaneously in that parallel dimension – making plans, determining actions and directions. Only in this parallel dimension there are no barriers, only a deep sense of interconnectedness and absolute certainty of our mission on Earth. It was a space and feeling of such wholeness.

In every way it was identical to this 3rd dimension, only it was very slowed down and relaxed. The exact same things were going on, only there did not seem to be the "danger" and problems that this third dimension poses. "We" were making decisions there that were trickling into this third dimension. We are there now projecting these words to "here".

This experience was similar to the dreams I described in a previous blog: Parallel Universe and the Rainbow. Only this time it occurred more consciously as I had direct intention. I also noted that this mirror dimension seemed to be the place where we can access our internal GPS system on directions to take in the third dimension. This is the dimension that we have to collectively access to receive the new command codes about how best to proceed and how best to transmit these teachings. The answers are already there, we just have to open and receive.

I was in this other dimension for about 2.5 hours, 3D time. When I came out I checked my email and noted that there had been a 5.6 earthquake nearby (in Hawaii). I didn't feel it at all. Though others in the same area did (and even on other islands).

I began reflecting on this and the earth changes and 3D events. I wondered if it was possible that when big events take place, we can collectively transport to this mirror universe where cataclysm cannot possibly occur. If something big does happen, it is wise to know how to "shift dimensions".

What this experience showed me is that at this time more than ever, it is important to take time to commune with our Spirit Essence. When we dissolve back to Source we attain certainty about our unity – this is so much better than Facebook friends– this is direct experience of noospheric consciousness.

I began considering all the codes of galactic time, noting that the true time science and time magic brought to V 24.3 by Valum Votan has barely been applied on this planet. These are the keys and codes that other telepathic civilizations are skilled at using, and if we just make the effort, more help is available now more than ever!

It is up to us to evolve these codes and experiment with them. Then we can teach it to others, through love and enthusiasm, never by force or fanaticism. The way of the new cycle is to vibrate the codes and become living examples. In this way, others around you will naturally want to know more because your vibes are so good.

We are here to create a new reality, the reality of our highest collective dream (which is actually already established in the higher dimensions and now being pulsed backward to us on planet Earth). The more we focus on the NEW through the Living Codes, the faster the old falls away.

We have to become models of the living codes, integrating them into our daily lives until they become our primary operating lens. This is how we can serve as a bridge from the higher dimensions to earth and become living emissaries for galactic culture. Then we will be teaching through experience and example rather than telling anyone anything. This is the way of the New Cycle, the way of the Divine Mother.

The 13 Moon 28-day cycle is a harmonic standard. Harmony is Resonance and resonance is the key to both transmitting this information to others and to shifting into other dimensions. We are 13:20, we are the resonant craft in which we travel! First comes our resonance with Source and then our attunement with each other is simple and natural. The access point of our attunement is the 13 Moon/28 day matrix. This is what we want to share with others.

So, what are the Main themes to continue after Galactic Synchronization?

### **1. 13 Moon/28-day Synchronometer Education.**

First and foremost we need to continue spreading the message of the 13 Moons –it is the galactic all access pass– behind the scenes to what is happening on planet earth. Without it none of the other codes work. There are many new & creative ways that we can communicate this.

We no longer need to condemn any other system, because we want all of our energy invested toward the new, toward the Light Codes. So we can find creative ways and skillful means to communicate with others what this 13:28 matrix actually is, and how each time we practice the codes we are interacting with a Living Galactic Intelligence where feedback is received according to purity of intention.

We need to be able to communicate how the 13 Moon/28-day Dreamspell codes reformulate the mind in such a way that "unscrambles" the conditioning of our brain. They help us to be open and receptive to deeper levels of time magic and increased synchronicity where our life becomes a living pop up book! Now that's exciting!

Basic training courses of the Law of time: In this category for those who are cyber-savvy, there is huge potential here for showing graphically some of the more difficult facets to grasp. With animated graphics seemingly complex concepts can be communicated instantaneously.

We also want to come up with new and creative ways to demonstrate how the synchronic order is directly linked to "real time" events, and also help to educate people about world events through a fourth-dimensional lens.

The Planet Art Network site also needs to be revamped with new life breathed into it!

### **2. Ceremonies for the Noosphere (and Gaia!)**

We must now all be making the effort to manifest the noosphere.  
Beginning with noospheric consciousness – that is the consciousness of non-ego.  
Many people still do not really understand this point. But it is the foundation.

You must engage in meditation, and practice prayer if you are going to get this point!  
Noosphere is non-ego! The leaf has no ego when it grows.  
The cloud has no ego in its shape-shifting ways. The  
seashell has no ego, nor does the flower, nor the hawk nor the lion.  
To reach noospheric consciousness is a main purpose of cosmic  
history. – Valum Votan

The template for grounding the noosphere, is the 13-Moon/28- day calendar (synchronometer), coded by the 13:20 synchronization matrix.

This brings us to the next point of creating Noosphere Ceremonies. Anything that we do on behalf of the Noosphere has an affect. The simplest way to explain the noosphere in a universal way is this is through Valum Votan's words:

The noosphere is the universal embrace of the mind of the Earth.  
No one and nothing is left out of this embrace. It is unconditional  
love. So become the noosphere and love everybody. Overcome  
your animosities and forgive your enemies, realize that they are just  
like you way deep down, seeking love and to be loved, seeking  
happiness and to be happy. If it doesn't start with me, then when  
and with whom will it ever start? – LOVE EVERYBODY!

As we shift into a more feminine perspective we can explain the noosphere in light of Gaia or the divine mother, like this:

Gaia or Ge, the Greek Goddess is the Great Earth Mother of all and the creator and giver of all the universe. She is the first being to emerge from chaos, so she is the supreme organizing principle that holds the noosphere in her all embracing body of love. Gaia is the spirit of love that infuses the noosphere with planetary heart.

We know that "Noos" comes from the Greek word "mind". So noosphere is actually the sphere of the mind or mental envelope, meaning planet Earth's mental envelope or mental sphere. All communication actually comes from the planetary mind of the noosphere that is cradled in Gaia's compassionate embrace.

So by making the noosphere conscious (through ceremony) we assist human evolution from fragmented chaos, like Gaia, back to the divine order of the Primal Mother!

The ceremonies include gatherings in circles, meditations on the one Earth as described above, vows of uniting as one mind with the mind of the Earth, drumming and singing circles, chants for the Earth, and concluding with the rainbow bridge meditation. Whatever it takes, creatively invoke group mind and collective consciousness born out of an atmosphere of unconditional love.

A simple way in to enter into noospheric consciousness is cultivating the ability of encompassing the whole Earth in your heart and feeling it as a single thoughtform. In other words, feel the Earth in your body as yourself, and repeat: "I am one with the Earth, the Earth and myself are one mind."

Then contemplate the fact that the Earth Mother embraces both her dark children and her light children simultaneously, so that She is always experiencing night and day simultaneously. She is always experiencing summer and winter simultaneously, and spring and autumn simultaneously.

When we can directly experience this synchronic simultaneity then we will know what it means to transcend linear time and experience ourselves as the source of all synchronicity, a chief characteristic of the new mind of the noosphere that we are moving into.

### **3. 13:20 Garden Communities/Galactic Culture Training Centers and CREST13**

This is key. These are the anchor points for Galactic Culture on Earth. People need places to go where they can immerse themselves in the teachings. We need a curriculum of different programs that we adhere to in a unified and synchronized manner; much like the vispassna system (in its uniformity around the world, but with different content and means).

This includes the need for an Educational Program Committee-- We need to form a committee to come up with the new programs; programs that can be replicated at other centers. We need different topics, i.e. a 3 day program for the 13 Moon calendar, a 7 day Synchronogalactic Yoga workshop to learn basic codes.

An entire syllabus needs to be created. Other topics include daily oracles, planet and human holon synchronizations (planetary geomancy), the role of the Sun and sunspot cycles, radial plasmas, the 7 heptad gates, all 28-day Telektonon circuits (this continues on but with new script), cube education and visualizations, vigesimal mathematics, the science of rainbow bridge meditations, telepathic technologies, Cosmic History Chronicles (many themes here), Cosmic Science, Synchronotron, etc.

These should all be holistically based with an aim for synthesis and integration. In other words, they should have much context, letting people know why they are learning this. Eventually, an entire catalogue of programs will be created. We need a serious and committed team (which I will be very happy to work with). Included in this whole systems catalogue will be permaculture, gardening, vegetarian living, etc.

b. We need a team to begin indexing all parts of the Law of Time including in Cosmic History Chronicles.

### **4. Synchronotron**

This is the Mothership of all codes and should be taught only to those who are ready. A good place to start with this teaching is through the galactic archetypes, which are directly linked in with the galactic signatures. Through the galactic archetypes, we can begin to demonstrate the way the Hunab Ku 21–Galactic Tree of Life works and how it is embedded into the 441 Cube Matrix, which is the key operating system of the Synchronotron. We need these advanced teachings to spread.

## **Role of FLT/GRI**

We will continue to serve as the key information hub and distribution center, creating 13 Moon almanacs and pocket calendars, distribution of Cosmic History Chronicles and fourth-dimensional tools and books, maintaining our websites, [www.lawoftime.org](http://www.lawoftime.org), [www.galacticspacebook.com](http://www.galacticspacebook.com), 13:20 frequency shift, CREST 13, Planet Art Network.

Recent activities include completing the synthesis of the 7 volume Cosmic History Chronicles: Accessing Your Multidimensional Self, Key to Cosmic History Chronicles, organization of 3 day event in Mt. Shasta: Becoming Your Galactic Archetype and Planetary Resurrection ceremony for Galactic Synchronization, upcoming trips to Mexico, Brazil (possibly Argentina, Chile, Uruguay) and Europe, while activating the energy of the New Cycle.

We are also currently working to manifest a Galactic Culture Training Center in the U.S. where we would offer different workshops and courses while beginning to create video training programs. We are exploring potentials in Mt. Shasta, Southern California and Hawaii. From this base, the next steps can be envisioned. The FLT is currently in need of more volunteers and more support in general to keep operations flowing and flourishing.

After feedback received from this event in Argentina we will be designing a 7 year program to anchor Galactic Culture on Earth....

Highest Love and Blessings for the Event!! And Happy Crystal Solstice!

Red Queen/Stephanie South--Electric Serpent (on behalf of Valum Votan and the entire Galactic Federation of Light)

# Council of The People of OMA

## Report and Presentation

The Earth Wizards gathered here at the **Council of OMA** in the Southern Cone, we celebrate this time of unification and realization of the Divine Will in loving service to the Red Queen, the FLT and the divine inspiration of Valum Votan.

Infinitely appreciate the dedication of the Red Queen in its communication to the development of this Council.

We recognize and support unconditionally his archetypal role as initiator and regenerative cycle. We always feel his telepathic presence and offer our energy and prayers to sustain its mission.

Again, thank you very much for your words and shared experiences that always resonate in our hearts, confirming the telepathic connection between all beings.

We are in love and brotherhood with Jacob, Kelly, Ashani, Ishram and all beings that we support and sustain from the FLT.

We are committed to working on his arrival, waiting with open hearts and high spirits to manifest the dream rainbow.

We have met in Council during the kins 125-128 of the Crystal Moon in plenary circle where they presented different Gardens and CREST Centers:

**Bioregion of the Star:** Colliguay Peace Garden (Chile); CREST Village Antukelén (Chile); Village Time to Sprout (Argentina); Peace Village Tollán Wizards (Argentina); Galaxica Tribe (Argentina).

**Bioregion of the Moon:** World Peace Garden of Epuyén.

**Bioregion of the Skywalker:** Garden UR Gaia (Uruguay); Node La Plata (Argentina); Node Paraná (Argentina).

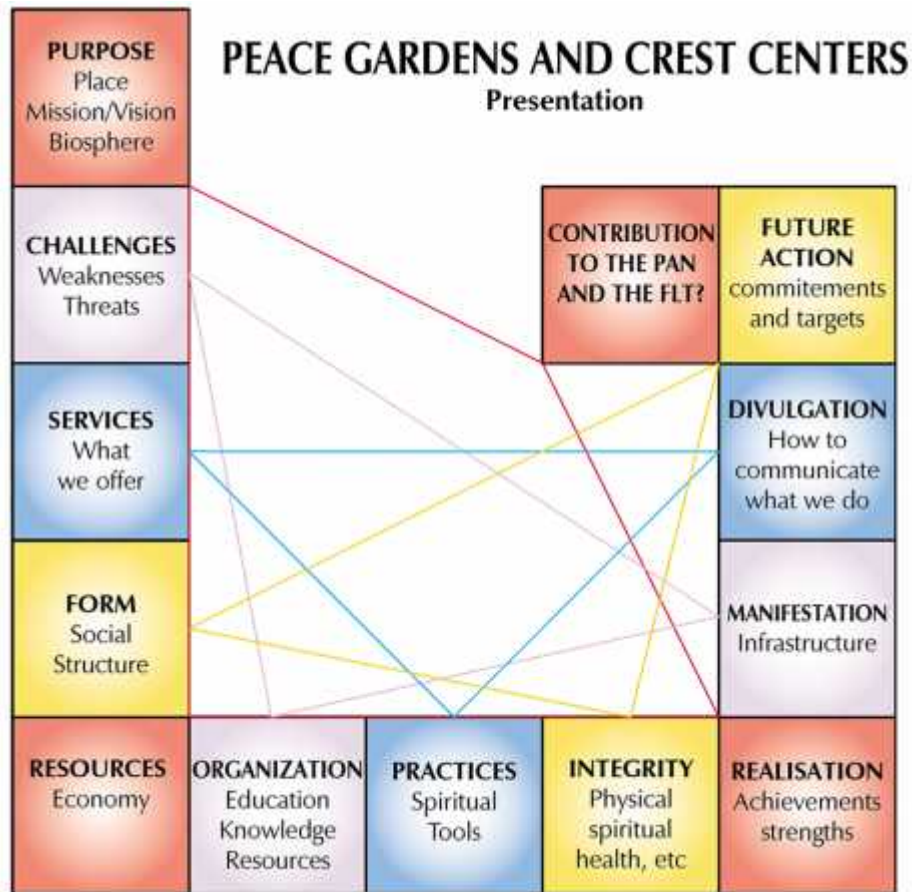

**Bioregion of the Human:** Center for Research Studies of the Law of Time (Brazil).

This experience was very rich, nourishing, inspiring and enlightening, where we understand that we had similar and complementary experiences. This was a pulse of great internal enrichment.

Thanks to the presence of Paula, kin Rhythmic Wizard, Rodrigo, kin Crystal Mirror and Josefina, kin Spectral Hand, we understand the importance of the tools that the Foundation makes available for inter-communication. We are committed to nurturing and maintaining a reciprocity with the Foundation by sending reports from each Center, with photos, on a regular basis.

We organize the presentation of CREST Centers Garden as follows:

- Other accomplishment is to have the mind totally working on 13 moon pattern, no Gregorian time controlling it.(don't think in Monday, Tuesday, January, February)
- Had more than 1320 kins activated from the garden.
- Reached around 80percent of food needs produced in the garden, (some years less, depending on number of people), had years that we produced 2000 kilos of food
- 13 years without using electricity, changing patterns, without using chemicals, machines (including mobile phones and clocks).
- Many many kin sedes that are now spread in many other gardens and projects (Magos de Tollan, Tiempo de Brotar, Tribu Galaxica, Brasil, Israel, España, Hungria, Israel and others)

## PAN Brazil

---

### 1. PURPOSE (Place, mission, vision, biosphere)

We are installed in an area of 14 hectares. There are 10 forests, mountains, river and waterfalls. Other 4 hectares include streets, facilities, fruit crops, and organic garden. Our mission is to provide a place for retreat and meditation, as well as a rich environment studies and experiences of the Law of Time.

### 2. CHALLENGES (weaknesses, threats)

The place has close neighbors living in the 12:60 frequency time; they but respect our work and visions. The place is rented, which means we cannot stay for life that brings us to search a place to build our own center, which should happen in the next 5 rings.

### 3. SERVICES (what we offer)

We currently offer accommodation and practices to the kin, meetings and retreats by moons. Also we have a summer school for longer retreats.

### 4. FORM (social structure)

We work with equality with all crew, we stipulate some rules of conduct that are based on the practice of meditation and work per day.

### 5. RESOURCES (Economy)

We raised resources from workshops, also with the sale of materials ranging from peace flags, skirts, Sincronometers, books, sale of agricultural products. We also bring our own resources to the projects.

### 6. ORGANIZATION (Education, knowledge, resources)

We organize training courses for facilitators of 13 days in retirement, (one wavespell), workshops in different places (with durations of 3 hours), Lectures and seminars for students with duration of one morning (SER, Dreaming and BELIEVE).

### 7. PRACTICES (Spiritual Tools)

Develop basically the study of the Law of Time, Natural Maind Meditation, UR, yoga and sweat lodges.

### 8. INTEGRITY (Physical, spiritual health, etc.)

We have a vegetarian diet and knowledge, yet superficial, in herbalism, our consumption is basically organic. To the extent that we are looking to improve health in all our relationships.

### 9. REALIZATION (Achievements, strengths)

We have made significant development events new consciousness of time, such as 49-day seminar, we are 70 facilitators, but few are active. I AM MORE PLANET campaign was a great help in the unification of kin and joint network. But I think the most important is our love for the practice and discipline that give us autonomy, security and the deep desire to move towards to the horizon of Noospheric.

**10. MANIFESTATION** (Infrastructure)

We have an office in the city where we serve the demands of movement in Brazil. In the field is the headquarters of the movement in Brazil, with accommodation, dining room, and a very good practical presentation that favors us in strategic alliances.

**11. DIVULGATION** (How to communicate how we do)

Some on web, some letters and also develop outreach projects that sequester, sending press releases to the media. We have a volunteer who work in public relations and has contact with all the Brazilian press and that helps us a lot in the dissemination of what we do.

**12. FUTURE ACTION** (commitments and targets)

We are with a bill on the national leadership to vote on peace and national adoption of the flag of peace. In our nearest plans are, develop a retreat for galactic synchronization, 52 workshops in different cities of Brazil, 10 of this have a date already, we will also receive the Red Queen in the Self-Existing moon, we are raising resources to continue in CHC printing, in the summers will tend Wizards School, followed by a time of hibernation to produce the new Sincronometer. And then will come the construction of the Center for the Study the Law of Time and a march to Brasilia activated by various peace movements in a joint strategy to link 10 million Brazilians into one manifesto for peace and culture. That is part of a strategic plan to promote the calendar change and maybe have a plebiscite tooo about calendar change. This plan may occur in the next 7 rings.

**13. CONTRIBUTION TO THE PAN AND THE FLT**

Currently I am dedicated to unifying the kin of Brazil to support the movement of 13 moons with the flame, amplifying our mental and spiritual quality. The solution to the world's conflicts.

## Peace Garden of COLLIGUAY

---

### 1. PURPOSE (Place, mission, vision, biosphere)

**Vision:** The Planetary Engineering Project II and the establishment of a network of communities throughout the planet, to create a unified mind field and create a telepathic network for the biosphere-noosphere transition and to launch the Circumpolar Rainbow Bridge.

**Biosphere:** The Garden is located in the Cordillera de la Costa, Region of Valparaíso (Fifth Region), at an altitude of 1,000 meters and a distance of 70 km from Valparaíso and 130 km from Santiago. This sheltered valley heights Inca settlements before the arrival of the Spaniards, and has been declared by UNESCO "Protection Zone of the Biosphere". Due to its height and relatively difficult to access location, flora and fauna have remained highly protected. In native language Colliguay means 'red serpent'. Also the colliguay (*Colliguaya odoriferous*) is a shrub that grows in the area.

**Guardians and Gardeners:** Josefina, Blue Spectral Hand and Seva Singh, White Lunar Mirror = kin 65, Red Cosmic Serpent.

### 2. CHALLENGES (weaknesses, threats)

The biggest challenge is the lack of water since the area has been affected by climate change, facing a major drought in recent years. We have seen drying off a well of 15 meters deep and we are witnesses to the decrease in the flow of a slope that supplied irrigation for vegetable gardens and fruit trees. At this moment, we have water supply of the municipality, every day Dali from each heptad.

Another challenge is to have a more sustained presence of kin who can help in the Garden, specifically in the construction of a community space for practices, for meditation and yoga.

We also have a challenge in implementing clean energy and building a more sophisticated composting toilet.

### 3. SERVICES (what we offer)

- Support the local community by participating in the Local Council of Health and the organization of Fairs for artisans and producers of the place.

#### **4. FORM** (social structure)

The Mirror has specific tasks such as cleaning and watering the garden; sustain the practices of meditation and Synchronogalactic Yoga; facilitate talks and workshops, facilitate the study of the Cosmic History Chronicles, teach Kundalini Yoga and perform healings.

Hand tasks are to produce the feeding of the Garden; sustain the garden, make natural cosmetics, making teaching materials, the editing and translation of books; sustain internet connectivity networks, designing for diffusion of Day Out of Time, Talks, Workshops and Seminars and also perform healing through therapies.

(To remember that after the Earth Wizards Seminar in Pícarquín and as a whole with Annick Pachamama, White Electric World-Bridger, was made the first translation of French Dreamspell and in the Blue Galactic Storm Ring, was activated a small group of kin who formed the first PAN in France).
- The first action we contemplate perform is the celebration of the Day Out of Time Blue Resonant Night, to be held in the city of Viña del Mar, in a Mapuche Ceremonial Center. ## Aldea Tiempo de Brotar (Village Time to Sprout)

---

### 1. PURPOSE (Place, mission, vision, biosphere)

**Precedents:** The Aldea Tiempo de Brotar emerge from the desire of a group of 4 kin that after an average of 4 years of experience in the World Peace Garden of Epuen and inspired in the Planetary Engineering Project CREST 13 Noosphere II, are led to create a new CREST Center in Argentina.

After exploring for more than 6 Moons by bioregions of the Moon, the Star and the Skywalker is received by commodate a virgin land of 21 hectares located in the Cerro Overo, between Cerro Uritorco and female The Twins, in the center of ERKS intraterrestrial. A 1 hour hike through the mountains panoramic, 1,200 m high is located CREST 13 Retreat Center Tiempo de Brotar.

**Mission:** From Seli 9 Rhythmic, ring 152 kin 4.4 (21.12.2009) the Center has received kins to experience NATURAL TIME frequency and natural mind heptad, and special retreats wavespell 28 days.

This center specializes in experiencing the natural mind in a natural environment, experience is strengthened by the site conditions: technospheric network distance, finding no roads nearby Capilla del Monte to 6 km from the Center, this creates insulation acoustics.

Plenty of pure water and mountain slopes counting the very next place and a river along the Center where there are located the facilities (under construction) and the organic garden surrounded by virgin native forest, fruit and mortars denoting the presence of original peoples of this area, Comechingones.

Under these conditions we were able to make 2 withdrawals of 28 days for the testing of continuous consciousness sustained over time using the practices proposed in the Noosphere II Project.

### 2. CHALLENGES (weaknesses, threats)

The lack of economic resources.

The more kin has not been incorporated to the Centre

The distance and difficulty climbing building materials has been a challenge, when we arrived there was no infrastructure which has led to the development of the Centre has a slower pace (we got 3 ½ years ago and still continue with the infrastructure basic: Community kitchen building) the 1<sup>st</sup> Ring we lived in tents.

Another challenge is that the property is not ours (they are 121 hectares in total and the commodate covers 21 hectares), this commodate will be renewed on 12/21/2013.

The value of the field that is for sale is US\$ 150,000 approx.

## Image Council of the People of OMA

## **After this presentation emerged the following points of interest:**

### **Reciprocity of kin / Visits to the Centers:**

We exchanged experiences on how we manage with the reception of people who go through the different places.

### **Spiritual Alliances:**

We understood that the work of network is created by cultivating the spirit of UR, including other spiritual currents, the community and the surrounding area.

### **13:20 Pedagogy / our children:**

Addressing the education of children in the gardens and villages. Provide an educational space within each center. They are the people who will sustain this project in generations to come. This point will continue developing in future meetings. More kin that will be needed to develop these tools.

### **Emergency Pantry:**

Food and medical support to any planetary emergency, at least for six moons

### **Ecology:**

Against threats of the environmental, climatic problems and those created by economic interests, we propose to work as priority the telepathic and support tools with the physical presence the pacific resolution of any conflict

### **13:20 Material**

Prioritize the use of the material provided by the FLT.

### **Link Node-Garden:**

Rearticulation of the PAN. Commitment to maintain the link made as Southern Cone Network annual meetings. We also agreed to support each other Centers, Gardens and Nodes for the dissemination and implementation of different events.

In relation to the four most important points referred to which the Red Queen refers, to continue after Galactic Synchronization, we conclude the following:

### **1. Basic Training Courses in the Law of Time**

The contents, developments and proposals are taken from Picarquín curriculum and are being renovated with the information of the Cosmic History Chronicles. As the Education Committee, this shall be composed by: Flavia kin Resonant Star, Rodrigo, Crystal Mirror and Claudia, kin Overtone Night, for now.

#### **The following proposals emerged:**

- Unified and synchronized Programs 4, 7, 13 and 28 days. At this point we need to share a personal encounter with the Red Queen to refine details of these programs. Workshops should be designed progressively including the information suggested in the letter of the Red Queen.
- Seminars of facilitators of the Law of time.

### **2. Ceremonies of the Noosphere and Gaia**

We press generate simple ceremonies with an atmosphere of love and high vibration frequency. As the unifying criteria we agreed to open the ceremonies with the Prayer of the 7 Directions and close it with the Circumpolar Rainbow Bridge Meditation, in a simple way (so you can reach all the people even if they do not know this Meditation).

We propose that in the Prayer of the Seven Galactic Directions, the turn becomes toward the South, based on the video of Valum Votan in Byron Bay, taking into account the worldview of the original peoples of the South and the planetary geomancy, and also that the last strophe is claimed "for peace to reign on Earth." This point should be adjusted in the web pages and in the whole material of diffusion, clarifying with an asterisk that the North changed into South and vice versa. Prayer would then, in the following manner:

From the East, House of the Light  
May wisdom dawn in us so we may see all things in clarity

From the South, House of Night  
May wisdom ripen in us so we may know all from within

From the West, House of the Transformation  
May wisdom be transformed into right action, so we may do what must be done

From the North, House of the Eternal Sun  
May right action reap the harvest so we may enjoy the fruits of planetary being

From Above, House of Heaven  
May star people and ancestors gather, may their blessings come to us now

From Below, House of Earth  
May the heartbeat of her crystal core bless us with harmonies for peace to reign on Earth

From the Center, Galactic Source which is everywhere at once  
May everything be known as the light of mutual love.

Ah Yum Hunab Ku! Evan Maya e ma Ho!

(Central Sun of the Galaxy, keep harmony between mind and nature)

**We have agreed the following dates to synchronize us in the ceremonies:**

Solstices and equinoxes  
Crystal Court  
Magnetic tones of each wave (Wavespell load)  
Beginning of the Genesis  
Every Silio day, and especially on 28<sup>th</sup> Silio.  
Every birth anniversary and transcendence of Valum Votan  
Days Out of Time

**3. Gardens- Communities 13:20 / Centers of Training of the Galactic Culture and Centers Crest 13**

- Create a Training Center of the Galactic Culture in South America.
- Advisory Committee for the formation of Gardens and Centers CREST 13:

Because we noticed a large variability in terms of the criterion of training of Gardens and CREST 13, and are not organizing themselves in a unified way, at least in our bioregions, we consider that it is necessary to create a commission of consultancy for the establishment of Gardens and Centers CREST.

The members of this commission will be the same representatives gathered here.

The proposal is that anyone who wants to open a space, first contact with this network, so that the interested place closer to the nearest reference. We think priority that the Foundation for the Law

of Time, before approving the existence of a Garden or a CREST, should consult with this network as observers of the space and the conditions in which they find themselves.

We propose that the existing Centers will be able to advise and to sponsor the new Gardens that are yet to emerge. The idea is that anyone who wants to pursue a CREST or Garden, have a minimum experience of 13 days in the spaces that are already functioning. Another important point is that at least one of the members of these spaces should be formed in the Course of Facilitators of the Law of Time.

#### **4. Synchronotron**

We share and adhere the suggestion of the Red Queen to first establish the basis for the information of the 13 Moons/28 days and the purpose of the same, then share the information of the Synchronotron. For this reason, the Committee of Education is working in various workshops and programs of study for which the information and practices will be delivering in an orderly manner and progressive, and people can arrive with a level of unified understanding.
