Change the Calendar!

Declaring the End of (false) Time and Shifting from Fear to Love.

To accept the 13 moon calendar is a positive, concrete act demonstrating the move from **fear to love**, from **chaos to harmony**, from **war to peace**. The end of time is the end of the old time of violence and separation encoded in an irregular and chaotic calendar.

Only harmony can unify. The Gregorian calendar is not a unifying harmonic standard. Lack of a unifying global standard exacerbates all current conflicts. The 13 Moon Time of Peace and harmony emerges as light embedded in a perpetual calendar that is a reflection of Nature's cycles.

The Earth goes around the Sun and makes a solar ring with each orbit. With the accurate measure of the 13 moons each with 28 days the solar ring can be made conscious. If we make this simple adjustment of following the 13 Moon calendar, then in one year our consciousness will bring the orbital solar frequencies into proper alignment with the human mind. This precipitates heightened awareness or consciousness that has not previously been known.

When history began in Babylonia, Sumeria and the Middle East it forfeited knowledge of the solar ring for a focus on the synodic lunar calendar which has nothing to do with the solar ring. When the conquest of the New World happened, the Babylonians destroyed the knowledge of the calendar which contained knowledge of the solar orbit. By destroying this knowledge they also destroyed the basis of cosmic perceptions - this is the root of the calendar change. Keep in mind that the destruction of Mayan time knowledge was completed by a Vatican calendar reform in 1582 which gave us the (Gregorian) calendar we use today.

The 13 Moon/28 day calendar is a cosmic mechanism that creates a frequency which matches the solar frequency. Attuning to this solar frequency will result in an acceleration of consciousness - this is the evolutionary trip switch.

The following points of study is merely a set of introductory considerations into the amazing new world of time, a world you may have scarcely suspected existed!

LEVEL I

1. How a Calendar Affects Reality: Why We Need to Change

- A calendar is a template of time. It is the most fundamental organizing system of human society. The purpose of a calendar coordinated with galactic time is nothing less than the complete synchronic organization of life.
- The word “calendar” is derived from a Latin word meaning “account book”, the first day of every month being calends or the date of payment of debts.
- The Gregorian calendar divides 365 days into 12 uneven months. Within this system there is very little cyclic or periodic order, resulting in a civilization in chaotic disorder.
- The order of civilization is based on the mechanical clock. The governing order of the modern world is the 8-hour day, 9-5 work-week. Punching in and out of a time clock is the measure of the worth of our time - in money.
- A calendar is a programming device. To think about the Gregorian calendar is to think about the unthinkable.

- The instruments of measure of artificial time are the **Gregorian calendar** as the macro-organizing principle and the **watch or mechanical clock** as the micro-organizing principle.
- The *macro-organizing* principle organizes our life into days, weeks, months, and years. The *micro-organizing* principle organizes our life into seconds, minutes, and hours. These two instruments have their common root in the *theft of time* that occurred at the beginning of history.
- Any standard of measure that is irregular and systematically improbable will produce corrupt or crooked thinking. Think about the billions of humans who organize their lives according to this irregular Gregorian calendar and mechanical clock.
- What is called global society is a **consensus reality driven by an unconscious, irregular, artificial timing frequency called 12:60 - 12 month calendar and 60 minute hour.**
- 12:60 is the manifest error in time which we all live, an error which is costing us the biosphere.
- The nature of time in which we live cannot be separated from the issue of the calendar. Time is of the Mind.
- Remember: **Who owns your time owns your mind. Change your time and you change your mind. Change your mind and you change your world.**

2. The 13 Moon, 28-day Calendar: A Fresh View

There is a whole new reality awaiting you. Yes, you! In fact, this new reality is your natural birthright. The entry pass is the 13 Moon/28-day calendar.

Many of us think of time as a way to keep a schedule of accounts or to record holidays. We rarely consider the **synchronic** aspect of time. The ultimate purpose of a calendar is not to keep accounts - **but to synchronize!**

The 13 Moon/28-day calendar is actually a standard of measure of Earth's solar ring - its solar orbit. Attuning to this solar ring through the harmonic calendar is the basis for developing cosmic perception.

Entering into the 13 Moon calendar is like learning a new language.

By learning this new language you begin to change the vibrational frequency of your mental patterns. These new mental patterns operate in a different way than conditioned, historical modes of thinking.

The 13 Moon calendar is a universal reflection of perfect harmony appearing in virtually all human cultures - Mayan, Druid, Egyptian, Chinese, Inca, to name a few.

This calendar is a function of the natural Law of Time. The Law of Time says energy factored by time equals art. $T(E) = \text{Art!}$ Time is Art, while **art is actually a function of consciousness expressing itself.**

The Law of Time has functioned since the beginning of time. It has been previously unconscious - but is now being made conscious through you!

Stop and think about it. A calendar is a programming device, right? Well, look at who programmed this calendar and for what reasons:

More than 2016 years ago, Julius Caesar came up with the idea to gain more power and to change the Republic into an Empire. The result was the Julian calendar. In 1582 Pope Gregory XIII "reformed" the Julian calendar to give the conquered Indigenous people a new time. History is the script written by those who hold the power.

So let's look at that new calendar and then create some cosmic history ourselves!

3. Familiarizing Yourself In the New Time

- This simple schematic sums up the new calendar. Every Moon (month) is exactly the same (28 days). Days of the month and days of the week are perfectly harmonized. Every month starts on a "Dali" and ends on a "Silio".
- This is what we mean by harmonic standard. Many implications!
- The Gregorian days of the week, Sunday-Saturday, are loaded with conditioned though forms (i.e. ancient karma). The days of the week of the 13 Moon calendar correlate to **seven radial plasmas** - electronic building blocks of Creation. Each plasma is associated with an action:

Days 1, 8, 15, 22 = **Dali** targets

Days 2, 9, 16, 23 = **Seli** flows

Days 3, 10, 17, 24 = **Gamma** pacifies

Days 4, 11, 18, 25 = **Kali** establishes

Days 5, 12, 19, 26 = **Alpha** releases

Days 6, 13, 20, 27 = **Limi** purifies

Days 7, 14, 21, 28 = **Silio** discharges

- The names of the 13 perfectly equal moons (think of justice and equality for all) follow what is called a "13 tone cosmology of time," and each has an action quality and a totem animal:

Moon 1 = Magnetic Bat Moon of Purpose (July 26 - August 22)

Moon 2 = Lunar Scorpion Moon of Challenge (August 23 - September 19)

Moon 3 = Electric Deer Moon of Service (September 20 - October 17)

Moon 4 = Self-existing Owl Moon of Form (October 18 - November 14)

Moon 5 = Overtone Peacock Moon of Radiance (November 15 - December 12)

Moon 6 = Rhythmic Lizard Moon of Equality (December 13 - January 9)

Moon 7 = Resonant Monkey Moon of Attunement (January 10 - February 6)

Moon 8 = Galactic Hawk Moon of Integrity (February 7 - March 6)

Moon 9 = Solar Jaguar Moon of Intention (March 7 - April 3)

Moon 10 = Planetary Dog Moon of Manifestation (April 4 - May 1)

Moon 11 = Spectral Serpent Moon of Liberation (May 2 - May 29)

Moon 12 = Crystal Rabbit Moon of Cooperation (May 30 - June 26)

Moon 13 = Cosmic Turtle Moon of Presence (June 27 - July 24)

- The 13 Moons with 4 perfect weeks each account for the 52 weeks a year. $13 \times 28 = 364$ and the 365th day is the Day Out of Time (corresponds to old July 25).
- This day is no day of the week or month at all. It is a galactic freedom day for the forgiveness of debts and the celebration of **Time is Art**. (see Perpetual 13 Moon Calendar, back page).
- The elegance and simplicity of the 13 Moon calendar made it the choice calendar in the annals of calendar reform, from Benjamin Franklin to Eastman Kodak.
- Personal ease of calculating days and weeks will free time and bring about greater joy and harmony.
- It is called a “Moon” calendar because the 28-day cycle is the average female menstruation cycle, and it is the average between the synodical lunar cycle 29.5 days - new moon to new moon - and the sidereal cycle 27.3 days - place in the sky where the moon returns. (The world's lunar calendars are synodical and have only 12 months and 354 days a year, though there are actually 13 lunations a year).
- All lunar calendars as well as all astronomical cycles are easily synchronized through the perfect pattern of the 13 moon 28-day cycle.
- The 13 Moon calendar is simple to follow! Just use it daily as you do with the Gregorian calendar. Note the ease with which you can make day-date calculations. Note the ease of annual planning as well as managing your moon-thly budget.

ASSIGNMENT:

Find your 13 Moon birthday. Note its Moon date and day of the week. Now take out your 13 Moon Calendar, and locate the information you need:

Step 1: Use the Gregorian calendar dates beneath the names of the Moons to locate your **birth Moon**.

Step 2: In that Moon, find the correlate Gregorian date of your birthday.

Step 3: Note the Moon date and day of the week. Your birthday will always be the same day of the week every year! No way can you get lost in time again!

4. Benefits of the New Calendar

1. **It will expand your perception of the world.** That is because its perpetual harmony is coordinated by the synchronic order.
2. **It will increase your daily awareness.** All you have to do to learn the synchronic order is to pay attention.
3. **It will create more synchronicity in your life.** The synchronic order is the order of reality organized by time. It is synchronic because everything is synchronized! All there is is synchronicity!
4. **It will create more Order in your life/mind.** Daily use of the harmonic 13:28 matrix naturally entrains your mind into higher levels of order.
5. **It will increase your attunement to Nature.** Use of the 13 Moon calendar will not only attune you to natural cycles, but it will also equip you with a new lens to view all aspects of your life and relationships.
6. **It will expand your imagination.** Follow the 13 moon calendar faithfully for 28 days and note what new perceptions, dream insights and creative ideas that might occur.

7. **It will increase your intelligence.** Within 52 weeks (one year) of using the 13-Moon calendar you will advance in intelligence, free dormant mind power, and increase telepathic “knowing”.
8. **It will increase your awareness about the patterns of your life.** By making conscious the patterns in our life we can see how a calendar affects our mind.
9. **It will increase your sense of wholeness.** Living by the synchronic order you can begin to assemble the pieces of your life to see the whole pattern.

As with anything in life, the more energy you put into learning the new language of time, the more accelerated the learning. Now is the opportunity to dispel fear and merge back into the **Original Pattern that connects us directly with the Galactic Whole.**

Level II

1. The 13 Moon calendar and the Law of Time

- The 13-moon calendar and the Law of Time open the door to the next stage of conscious evolution.
- The Law of Time is a whole system knowledge, which means it is both intuitive and logical and proceeds from the premise that **the whole is in the part and that the part is in the whole.**
- The Law of Time **makes conscious what was unconscious.** Humanity has been unconscious of the effects of an irregular calendar and of the mechanization of time. The Law of Time sheds light on these matters and offers a solution.
- The 13-Moon calendar is the practical application of the Law of Time.
- Time is not only a measure of cycles but is also the **universal factor of synchronization.** The chief pragmatic instrument of the Law of Time is the 13 Moon calendar.
- The Law of Time differentiates between the machine-based **12:60** timing frequency, which drives all of modern civilization, and the natural universal timing frequency **13:20.**

- From this differentiation follows an evolved understanding of cyclic time, the **synchronic order and levels of fourth-dimensional knowledge** entered through the mathematical harmony of the 13 moon calendar.
- The Law of Time makes it possible for a critical mass of humans to precipitate a **time phase shift**. This is like pushing the fast forward button to a space where Earth has already cleared itself of the distorting vibrations of the erroneous 12:60 timing frequency.
- Phase shift: A radical displacement of the Earth into the future through a process of teleportation. The Earth is already poised for such a shift as a natural part of her mutation into the **Psychozoic Era**.
- The Psychozoic Era - spiritualization of all of life - is what awaits the Earth following the return of humanity to natural time.
- Time passes through several stages. The 13 Moon calendar is just the evolutionary door opening. On the other side of that door lies a **New Mind and a New Reality**.

2. The 13 Moon Calendar and the Tzolkin

- The 13:20 frequency is the **universal constant of time** from whose mathematics the **Tzolkin** is derived.
- Based on the permutation tale, called the Buk Xok in the Chilam Balam tradition, this Tzolkin matrix is a **Harmonic Module**, fractal yardstick of radial time with multiple applications.

- This fourth-dimensional **Harmonic Module** is key to the Mayan calendar system. As the Harmonic Module the Tzolkin is 13x20 (13:20 frequency) matrix consisting of the permutations of **20 solar seals** and **13 galactic tones**. The 260 possible permutations of seal and tone create the cycle of 260 Kin.
- The 260-day cycle of the Tzolkin correlated with the 365-day cycle of the 13 Moon calendar creates a cycle of 18,980 days or 52 years during which no two days repeat. This is called the **Solar-Galactic Cycle**.
- The Tzolkin is a mirror of our relations and ways of behaving in the world.
- The Tzolkin clarifies patterns of synchronicities. Once the patterns are known, our alignments or alliances become intensified. First comes the alignment with our own individual destiny.
- The **20 seals** and the **13 tones** of the Tzolkin are the destinal guides that monitor the synchronicities of our lives. Every day has a particular seal, a particular tone, and a particular day of the week (radial plasma). This composite of information is how the synchronicities in our lives are tracked and become apparent.

3. Find Your Galactic Signature and Enter the Dreamspell

- By your date of birth you are one of the 260 Kin coded in the Tzolkin. This is called **your galactic signature**.
- **Dreamspell** is the complete description of the codes of fourth-dimensional time coded in the Tzolkin.
- Your Galactic Signature is the entry to the new culture of time, galactic culture. The galactic signature involves 3 components: a color, a tone, and a seal, e.g., Yellow Self-existing Star (Kin 108)
- No one else but you can receive the destinal message of the galactic signature that is meant for you alone. This is only the beginning.
- According to your galactic signature you belong to an **Earth family**. The Earth family codes your Moon calendar birthday with four different seals, four colors and 13 tones to create your own 52-year solar-galactic cycle.
- Dreamspell has two aspects: First, it describes the **interstellar, interplanetary cosmological history of Planet Earth**. Second, it provides the codes for **social reorganization** - the new dispensation.
- The Dreamspell encompasses a whole set of mathematical codes that describe

Earth as a whole system.

- The summation of all of the levels of the synchronic order and the Law of Time are known as the **Dynamics of Time**.
- The Dynamics of Time demonstrate that the **evolution of time is the evolution of consciousness**.
- By applying the practices of the synchronic order, as described in the Dynamics of Time, we can begin to develop the power of sensory teleportation as well as time travel.
- To

4. Understanding the Wavespell of Time

- The wavespell is the standard fractal unit of measure. It is represented by any cycle of 13 - 13 days, 13 weeks, 13 moons, 13 years, etc.
- “Wave” refers to the power of movement, spell to the power one can gain by being in harmony with reality. corresponds to the 13 tones of creation.
- To know and “ride” a wavespell is to demonstrate harmonic identification with fourth-dimensional time.
- The wavespell also corresponds to the **13 tones of creation**. Each tone presents qualitative and numeric meaning in itself, and in relationship to the other tones.
- One year (365 days) equals a **13 Moon Wavespell** (13 Moons with 28 days each).
- A 13 Moon Wavespell is also known as a **Planetary Service Wavespell**.
- Each year of 13 Moons can be divided into 4 perfect quarters of 13 weeks each. These 13 weeks are also known as a wavespell (remember a wavespell is any cycle of 13).
- Rather than January, the first moon on the 13-Moon, 28 day calendar is the

Magnetic Moon. The Magnetic Moon is always correlated with the Gregorian date July 26 (rather than January 1). So the first day of the year is **Magnetic 1**.

- The first day of the new year Magnetic 1 will always fall on one of four solar seals: **Yellow Seed, Red Moon, White Wizard, or Blue Storm**. Each of these will always be combined with a tone. For example this year is **Blue Spectral Storm**, but starting July 26, 2017, it will be **Yellow Crystal Seed**. The year after that will be **Red Cosmic Moon**. And the year after that will be **White Lunar Wizard**.
- Years occur in four-year groups known as Seed-Storm Year Bundles. 13 of these four-year bundles equals 52 years. A 52-year cycle is also be called one **Solar-Galactic Cycle**.

LEVEL III

Future of Time: Noosphere, Rainbow Bridge and Telepathy

- The Law of Time recognizes that the crisis of artificial time is symptomatic of a much larger evolutionary shift point: the **biosphere-noosphere transition**.
- To make the change to a new time amounts to making the shift to a new evolutionary cycle, the noosphere, the mind of the earth.
- Simply by synchronizing our mind to a harmonic standard through use of an even measure (versus an irregular measure) the mind will become predisposed to the noospheric consciousness.
- Once we are living in natural time, the increase of perception of harmony and harmonic order will evolve new values of organic simplicity.
- Synchronicity will become the norm and telepathy will be understood as a prime human capacity to be cultivated.

- The increase in synchronization, the rise of harmonic values, and evolving lifestyles of organic simplicity webbed together by telepathy will easily bring about a peaceful unification while enriching the cultural diversity of human society.
- A daily recognition of the patterns of nature will bring about environmental harmony and increase awareness of natural time and rhythms of nature.
- The reestablishment of the harmony of human with nature (the biosphere) will stabilize the Earth changes.
- Understanding time as the synchronic order will open doors to new domains of scientific enlightenment.
- Personal attunement with the Natural Order will result in increasingly enhanced psychic power.
- Rebalancing feminine cycles and restoration of gender balance will greatly improve the quality of human relations and culture.
- Realization of Time as the fourth dimension will liberate the imagination into technicolor splendor, with artforms yet undreamed.
- Understanding time as the evolution of consciousness, we will understand how consciousness is held in the solar ring. Because of this we will see the relation between time, telepathy and time travel.
- The new paradigm of time, telepathy and time travel will become humanity's next sacred challenge. The synchronization of the human mind with the natural order will make possible unsuspected wonders - like a Rainbow Bridge around the Earth.

If we can arouse a critical mass to make this Change,
then the Galactic Mayan miracle of time will have been realized.

An awakened humanity will write a new story and take its rightful place in the greater
galactic civilization.

**Learning swiftly May you evolve with grace and ease into the
Magnificent Galactic Being that you have always been!**

Declaration of the First World Peace

We, the people of planet Earth who have chosen to follow the 13 Moon/28-day calendar as the basis of a new sovereignty and a new community of peace and harmony with all of life on Earth, in rejecting the old calendar and its disempowering institutions, do hereby declare the commencement of the First World Peace.

The purpose of the First World Peace is to declare Earth as a universal cease-fire zone thus assuring the time for a **comprehensive reordering of human priorities** with the end of sustaining and furthering all of life as a single unity on this Earth. To attain this goal, we do hereby declare and establish our **sovereignty in a New Time of perfect harmony**, and in so doing, are no longer bound to the institutions and mores of the old time and its calendar. We solemnly dedicate ourselves, instead, to a new beginning with fresh, creative ways of solving our problems. War is no longer in any way a viable form of conflict resolution, and in its place we call for a universal disarmament accompanied by a reorganization of human society in accord with the constructive peace and harmony reflected in the new calendar of 13/Moons 28-days.

In making this declaration of the First World Peace we call upon all existing humanitarian organizations to join us in creating a New Assembly of the Earth which will first of all assist in making the change to the new calendar and the new time among all peoples of the Earth. Simultaneously, the New Assembly of the Earth will call upon representatives of all peoples to gather to establish the new priorities and to prepare for a universal understanding of time as the basis of a new Global Civilization.

We who undertake this heroic adventure do so only after having seen and experienced the exhaustion of the old order embedded in a calendar whose time no longer served the purposes of universal spiritual and mental evolution. We pray to the Supreme Creator that our task will be guided by Divine Mercy and that Compassion and Enlightenment will befall the upholders of this Declaration. May we have the courage to release all of the old that is furthering division, strife and destruction. May we equally have the wisdom to preserve that which will in every way continue to uplift the human species. Above all, may we have the patience and tolerance to define and promote the new ways of life that will be in accord with the maintenance and evolution of our Earthly support system, the biosphere, and which will foster a spirit of universal acceptance and tolerance among all human beings.

We understand that if we do not now take these measures we are forfeiting the greatest opportunity that is afforded by **changing the time through changing the calendar**, and that is to declare an immediate peace that is the expression of the will of the untold billions of humans whose choice is not war but peace. May the voice of the people of the Earth be heard in all tongues echoing in all the valleys of the Earth, blown by all the winds across the seven seas to the highest mountain tops: **Let the New Time of Peace prevail for seven time seven generations to come!**

HOW CAN YOU HELP?

There are 5 SIMPLE THINGS you can DO NOW to CREATE WORLD PEACE:

1. GET EDUCATED AND CHANGE YOUR CALENDAR. Let's elevate our perceptions of time by making the conscious choice of integrating the 13 month x 28 day perpetual calendar with the Gregorian 12-month calendar until we change the program altogether. Educate yourself on the nature of time. The nature of calendars and clocks. What are their effects on consciousness? As more people switch their minds to attune to a natural harmonic standard, the underlying basis of practically everything we know in society will start to change. The more human beings whose minds and bodies are attuned to the cycles in Nature, the more harmony we will be able to experience individually and collectively in the world. Changing the calendar is the Untried Solution. It is to begin again.

2. SIGN THE PETITION FOR CALENDAR REFERENDUM. Calendar Reform is essential to the rights of human beings and Nature, because by harmonizing with the natural cycles of time we can restore human mental health and harmony in relation to the 'circle of life'. Beyond all ideologies, a correct measurement of time is a basic unifying factor of a sane and self-aware civilization. How can we have a healthy civilization based on a crooked measurement of Time? In one easy stroke, we can dissolve the macro-organizing principle responsible for the planetary biospheric emergency we find ourselves in, and lay the correct foundations for world peace, regenerative culture, and natural harmony.

To [sign and support this open petition for Calendar Referendum 2020](#) and **Declaration of Universal World Peace**, and to ensure that humanity adopt and implement the 13-Month, 28-Day Calendar as a new Harmonic Standard by 2020, please go to:
