

Cosmic Hand's Story in the Skies Rocking the Cradle in the Sky

(Written on Kin 152/Spectral Moon 9) Aloha Planetary Kin:

This is My Interpretation of the Astrological Aspects of the Crystal Moon. Welcome to this continuously evolving Story in the Sky, playing out through the astrological aspects. The first three Full Moons of the astrological cycle are known as the Spiritual Growth Full Moons in esoteric astrology. We've already gone through the first two, the Full Moons of Resurrection and Enlightenment.

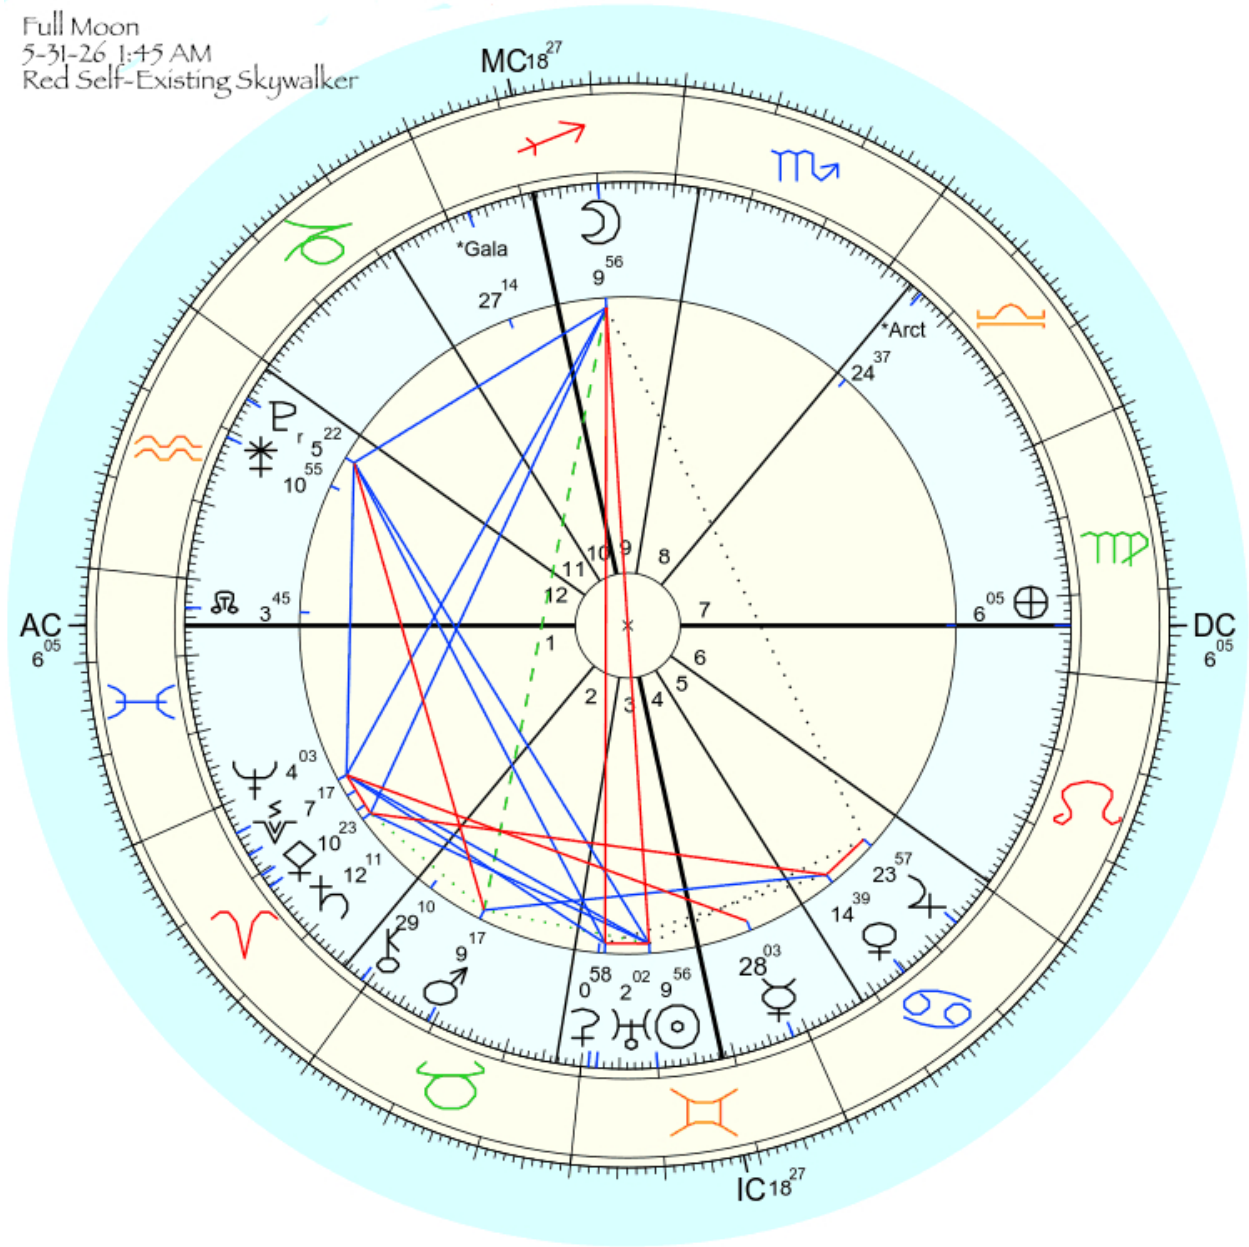

When the energies of those two moons are added together the result is the Full Moon of Goodwill. Which occurs on Kin 173 (May 31, 2026). In the Gregorian calendar it is the second Full Moon in May and is therefore considered to be a Blue Moon. But what's happening in the sky with the aspect known as the Cradle is even more rare than the Blue Moon.

We have a recurring pattern of the Cradle in the sky, rocking back- and-forth, from New Moon to Full Moon. With the Full Moon of Goodwill, the Cradle rocks to the left side of the chart. For this Cradle aspect the Moon and the Sun hold the points of the

Cradle. And the theme of a Goddess holding each of the points of the Cradle continues into this configuration.

The Moon holds the leading edge up near the top of the chart. Juno is still conjunct Pluto holding the vertex of the first Mystic Triangle. Neptune (the Deep) and Vesta (the Fire on the Altar of the Goddess) are conjunct at the point of the first Mystic Triangle and the vertex of the second Mystic Triangle. Then the Sun holds the final point of the Cradle along with Uranus (The Lightning Bolt of Sudden, Unexpected and potentially All Encompassing Change) and Ceres (the Goddess of Nourishment). It appears that the Goddesses are protecting and rocking the Cradle for the Birth of the new paradigm.

Red Self-Existing Skywalker

In The 13 moon calendar, this is the Full Moon of the Crystal Moon of Cooperation on Crystal Moon 2. The Goddesses in the sky are Cooperating to rock the cradle. We should Dedicate ourselves to Cooperation in order to Nurture the Birth of the new paradigm and spread the energy of Goodwill all around. We are in the White Dog Wavespell...

the Wavespell of Love. If we put our Hearts into the establishment of a new paradigm, we can show our Loyalty to each other and to the path of Love. In the process, we can easily manifest a new paradigm with Love at its Heart.

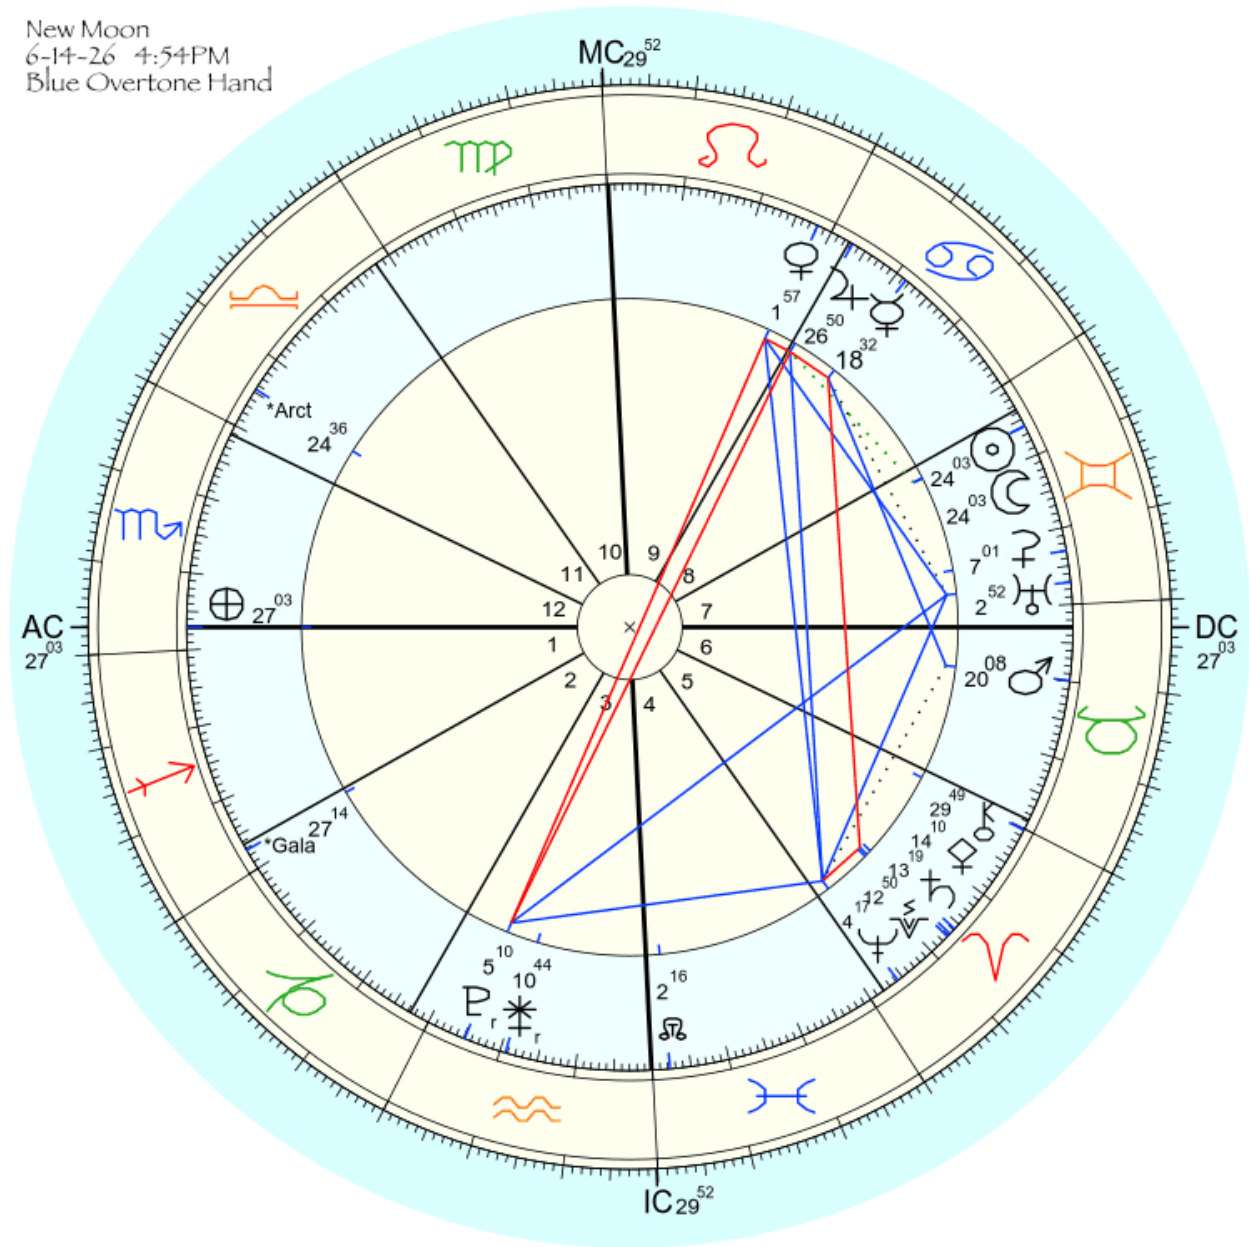

This Full Moon is also the Galactic Birthday of our Calendar Goddess Eden Sky, Kin 173. When we are talking about the Return of the Goddess, inherent in that is the Return to the Garden. Which Eden has been holding as her namesake. Her Galactic Signature is Red Self Existing Skywalker - I define in order to explore... which is exactly what she's done for us with the calendar for all these years. This is also a Galactic Activation Portal. On the Full Moon of Goodwill it opens all the dimensions for us to explore how to allow the Spirit of Goodwill to flow into all of our endeavors. Smoothing the way to a new paradigm.

Next we have the New Moon occurring on Kin 187 (June 14, 2026). As you can see, the Cradle has rocked back to the right side of the chart. At this time the Sun and Moon are not holding any point of the Cradle. But are within the Planetary Parade, which is all encompassed by the Cradle. All of the planets are once again in the Cradle and on one side of the Earth. *At this time, we are again open to*

*direct communication with Galactic Center and
Arcturus!*

Continuing with the theme of Goddesses holding each of the points of the Cradle. Pluto (Transformation) conjunct Juno (The Queen of the Goddesses) have moved back into the lead point of the Cradle.

Blue Overtone Hand

Neptune and Vesta are still holding the vertex of the first Mystic Triangle and the point of the second Mystic Triangle. Uranus and Ceres are still holding the vertex of the second Mystic Triangle. Then Venus (The Goddess) and Jupiter (Spirituality) are now holding the end point of the Cradle.

This is also the New Moon of the Crystal Moon of Cooperation on Crystal Moon 16 in the 13 moon calendar. We must Dedicate ourselves to the Cooperation necessary to prepare for the Return of the Goddess and establish the new beginning of a new paradigm.

This New Moon is in the Blue Night Wavespell where we Dream the Dream and use our Intuition to guide us in how to Attract Abundance. Blue Overtone Hand - *I empower in order to know* accomplishment is the New Moon Day. The Dream Empowers us through our Intuition to Know how to use our Hands to produce the Healing necessary to see us through the Accomplishment of our goals... The Healing of the Divisions, The Reparation of the Separation, The Return to Unity, Love, Harmony, Peace, Joy and Happiness.

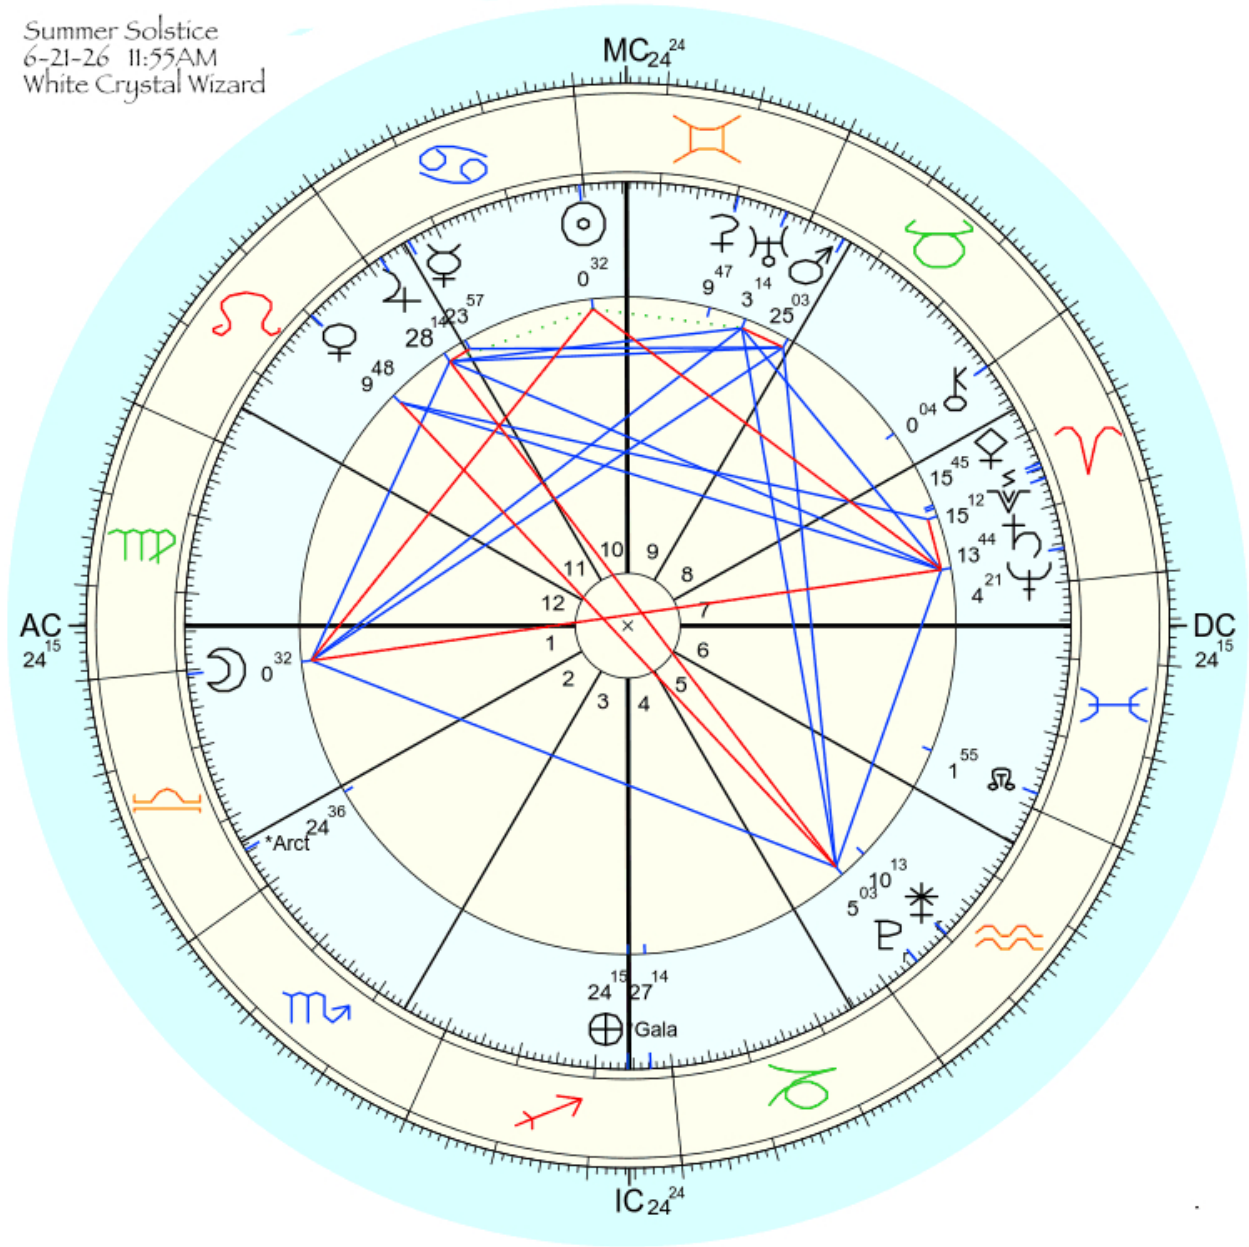

If you think these have been pretty positive aspects... Wait until you see what's coming up next! On Kin 194 (June 21, 2026) the Summer Solstice is, of course, the longest day in the entire year. This year it has some of the most positive aspects I've ever seen grouped into one chart. It carries the Cradle to a whole new level.

On the day with more light than any other day of the year, the Moon moves into a position to make a

third Mystic Triangle. This advances the **Cradle** into a **House**. And within that **House** is contained a **Grand Trine**. All the planets are still contained within this powerful geometry of positive energy.

Two of the Mystic Triangles make a Kite out of each side of the Grand Trine. The central Mystic Triangle makes a roof over the other two Mystic Triangles. Then the base of the Grand Trine closes it all into a **House**.

White Crystal Wizard

Pluto conjunct Juno at the beginning and the Moon at the end, hold the base of the Grand Trine and encompass all of the Planetary Parade. They form the Grand Trine with Uranus conjunct Ceres at the Apex. In this case, the Goddesses are holding up the roof and providing the foundation for the

House. Neptune still holds the vertex of the first Mystic Triangle.

Uranus conjunct Ceres still holds the vertex of the second Mystic Triangle, the first point of the third Mystic Triangle, the Apex of the Grand Trine and the House. This means that three positive aspects all connect at the apex to the Lightning Bolt of Quick, Sudden, All Encompassing Change and the Nourishment provided by the Goddess. Then Jupiter (Expansion through Spirituality) holds the Apex of the third Mystic Triangle and the Moon holds the end of the Planetary Parade and the base of the Grand Trine. While the Part of Fortune has moved over to conjunct Galactic Center. *We are still open to the input from Galactic Center and Arcturus from that side.* Which is the basement of the **House**... Or the deep subconscious.

This year the Summer Solstice is a Crystal Day in the Crystal Moon on Crystal Moon 23. This means it's a doubly powerful day for Magic. Adding to that, it is the White Crystal Wizard day - *I dedicate in order to enchant... Universalizing Receptivity.* Guided by the power of Death. We must realize that Death is... Death to the old paradigm and that Death holds within it inherently, the Opportunity to Equalize through Rebirth and new beginnings. We can call on Galactic Center and Arcturus to help us

Enchant with the Magic of the Double Crystal Day/
Crystal Moon to Universalize Receptivity to the
Return of the Goddess and the Return to Natural
Time in the collective consciousness of the masses.

We are also still in the Blue Night Wavespell. This is
the Crystal Day of the same Wavespell as the New
Moon. So the Dream initiated at the New Moon can
be brought to Light on the Summer Solstice. The
Crystal Tone is the tone of Cooperation. So this is
indicating a time of public gathering, sharing and
group activity. We must Cooperate collectively to
do the Magic to facilitate the Return of the
Goddess... Return to the Garden. This will bring
Love back as the guiding force in our paradigm.
Then we can build a **House of Beauty, Goodness
and Truth** where we can all live in Unity, Harmony,
Love, Peace and Happiness.
