

# Cosmic Hand's Story in the Skies

## From the Cradle Emerges the New Human Paradigm

(Written on Kin 185/Crystal Moon 14)

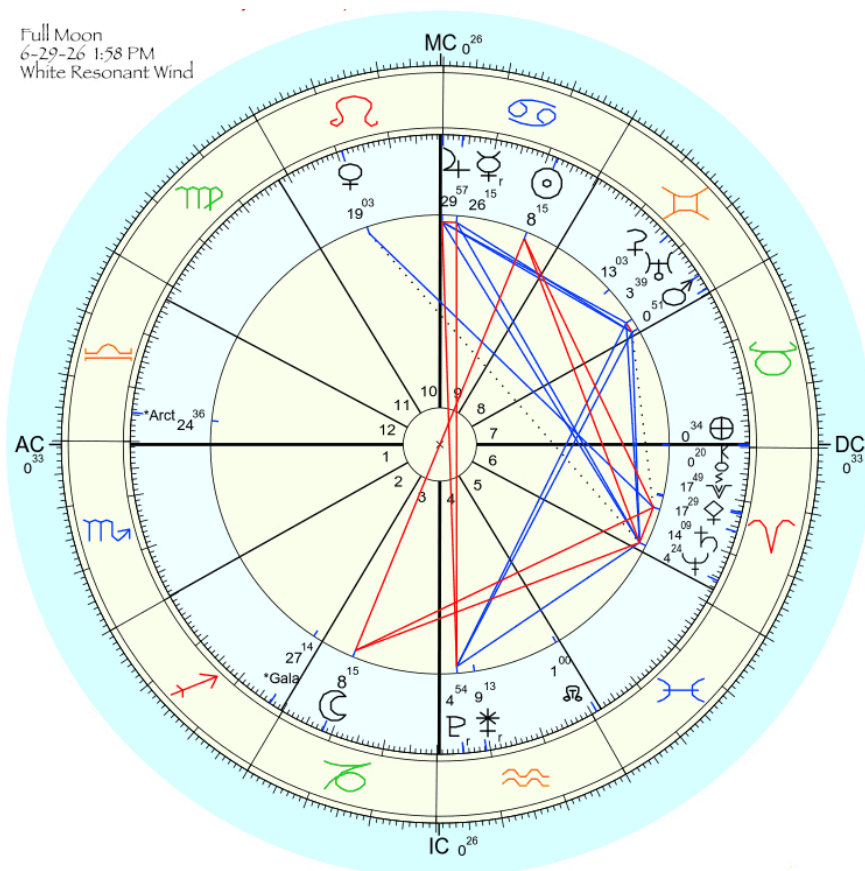

Aloha Planetary Kin:

This is my "big picture" interpretation of the astrological aspects for the Cosmic Moon. As we've seen in the past three moons, there is an evolving pattern of astrological aspects playing out in the sky. We are now past the Spring Moons of Spiritual Growth and into the Summer of Activation and Realization.

So far in this story, all of the planets have been grouped on one side of the solar system from Earth in an epic Planetary Parade. The only celestial body that has moved out of that is the Moon, since the Moon goes around the Earth. But now Venus has ventured out. While she is still part of the Planetary Parade, she has moved to the other side of the median and is now the only planet on the same side of the solar system as the Earth. While the solar system still remains extremely unbalanced to one side, Venus will soon be joined by the Sun and Mercury to begin the redistribution of the planetary energy. When she moved out of the planetary lineup, Venus passed over a conjunction with Jupiter in the Crystal Moon. This brought the combination of Venus (the Power of Love) with Jupiter (the Power of Faith and Hope). Now Venus and Jupiter will continue to be lighting the evening sky after sunset, blessing us with Faith, Hope and Love.

The Full Moon arrives on June 29, 2026. As we return to the Full Moon, we see the re-emergence of the Cradle aspect. It is rocked all the way to the right side of the chart. And we see that Pluto is leading the way conjunct Juno. Which has been the case, all along with the Cradle. The Queen of the Goddesses and the Planet of Transformation are holding the point of the Cradle. While Neptune still holds the vertex of the first Mystic Triangle. So, the Goddesses are still holding the beginning of the Cradle aspect. The second point of the first Mystic Triangle, and the vertex of the second Mystic Triangle is now held by the conjunction of Mars and Uranus, with Ceres widely conjunct Uranus. So, the Goddess is still hanging in there. Bringing up the end of the second Mystic Triangle is the conjunction of Jupiter and Mercury. Mercury is, of course, the planet of communication in all different realms. Mercury helps spread the word of Faith and Hope represented by Jupiter. Outside of the Cradle, but still in the Planetary Parade are both the Moon and Venus. The Moon is leading the way of the Planetary Parade. While Venus is blazing high in the evening sky, holding up the end of the Planetary Parade. The Goddesses have moved to the beginning

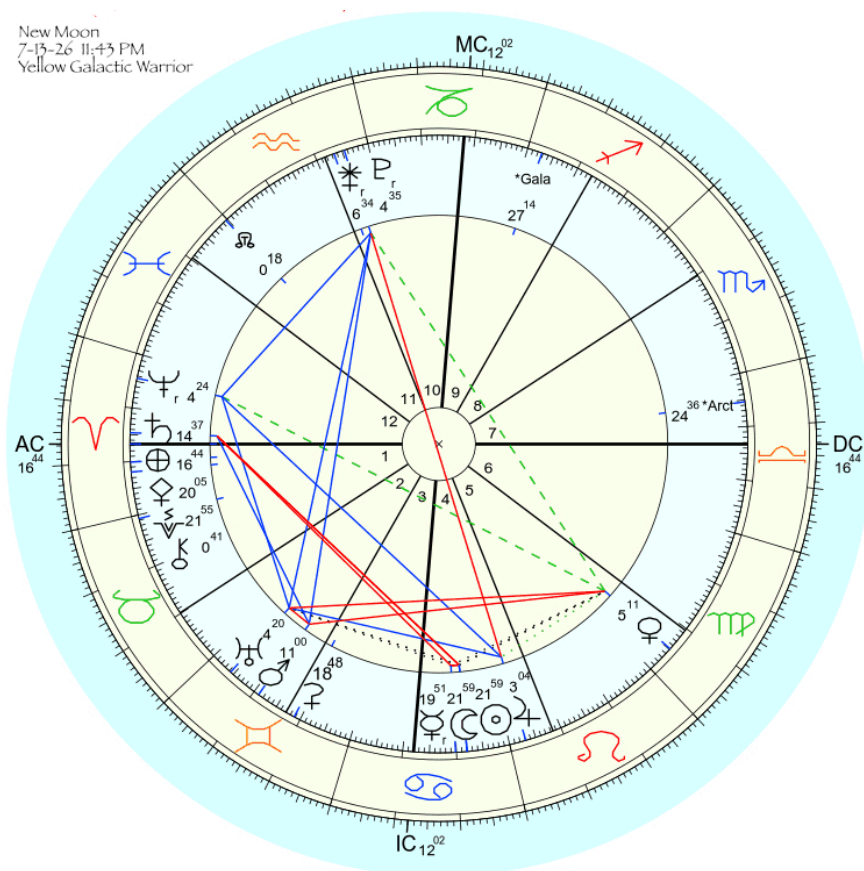

and the ending of the Planetary Parade still holding the Cradle within their loving arms.

Within the Planetary Parade, following Neptune, we also have Saturn conjunct two Goddesses, Pallas Athena, exactly conjunct to Vesta, which are both trine to Venus. So, the Goddesses are really working Saturn to release materialism and return us to a Paradigm of Abundance. Then we also have Chiron conjunct the Part of Fortune, both at 0° of Taurus. The Part of Fortune is the purveyor of Good Luck. When it is conjunct Chiron, we are fortunate to have the ability to do deep powerful healing. And they are also conjunct 0° Taurus, which bodes well for the manifestation of that healing in whatever areas of life it is needed.

In the 13 moon calendar, the Full Moon is on Cosmic Moon 3 (kin 202) - White Resonant Wind - I channel in order to communicate. With Mercury conjunct Jupiter holding up the end of the Cradle, the power of Communication is accentuated. Our ability to Channel Faith, Hope, and Love into our Communications is highlighted. White Resonant Wind is in the Yellow Warrior Wavespell, where we use our Intelligence to Question. With the power of the Yellow Warrior Wavespell, we can use our Intelligence to Communicate that we Question why Faith, Hope and Love are not the guiding forces of our paradigm.

Now we come to a significant time in the cycle of the US. It is the 4th of July. This year is the 250th anniversary of the founding of the US. What I find very interesting about this date is, not only is it the anniversary of the founding of the US, but in the 13 moon calendar it is the day Blue Crystal Hand - (kin 207). Some of you may remember, but for those of you who don't, that day was also December 21, 2012. It was the modern “ending of the Mayan calendar”. Yes, this means that the 250th anniversary of the US and the ending of the Mayan calendar are the same day in the Tzolkin (the Sacred Calendar of the Maya). This brings back into focus, that we are living in the “end times”. As I said earlier in the series, the “end times” doesn't mean the end of the world, or the end of humanity, or the end of civilization, or the end of life on earth. Time doesn't end. It just keeps on moving. Just like the Mayan calendar kept on moving after it's cycle ended December 21, 2012. At the same time that the old cycle ended a new cycle began. So, life goes on, following big cyclical patterns. But the “end times” do mean the end of a cycle. Let's hope that this means the end of the cycle of the Patriarchal paradigm. Which is embodied by male domination, ruling classes, war, corruption, materialism, separation, inequality and fear. Paving the way for the Return of the Goddess and a paradigm exemplified by Love, Harmony, Peace, Joy, Unity, and Equality.

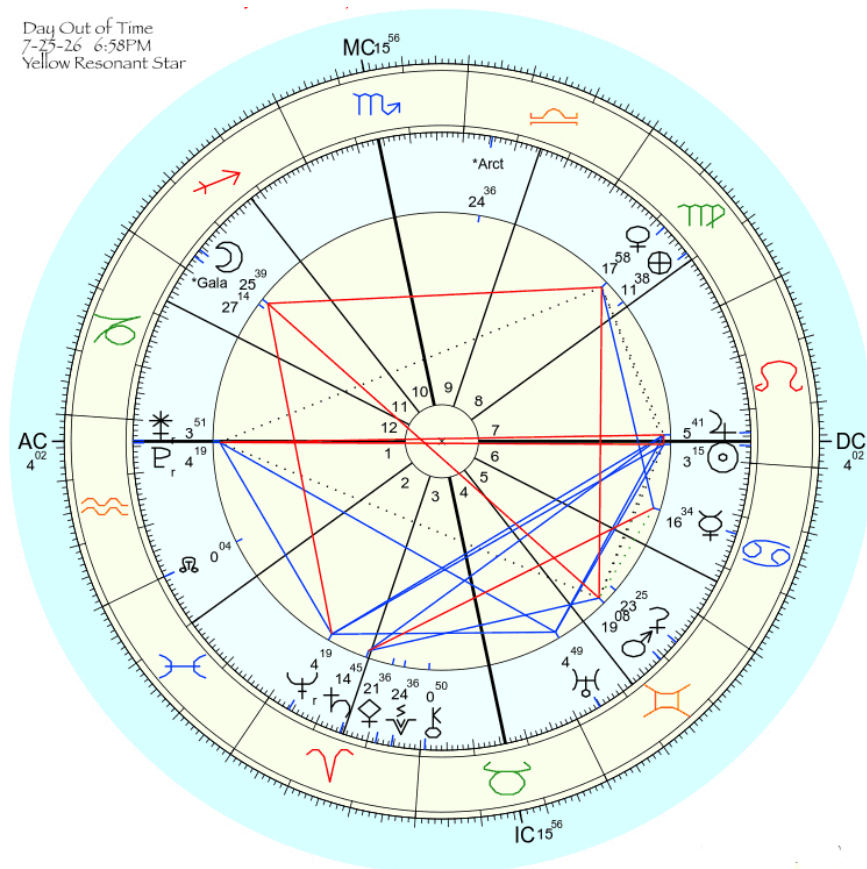

Next we come to the New Moon. It arrives on July 13, 2026. As you can see, the Cradle has swung all the way back to the left of the chart. It is swinging about as far as it can swing without dumping itself out. So, the Cradle has been rocking big time... This version of the Cradle has shifted significantly. Each point and vertex of both Mystic Triangles are now held by outer planets. Pluto and Ceres are still leading the way. The Goddess is still working with the Planet of Transformation, at the leading point of the Cradle. We still have Neptune at the vertex of the first Mystic Triangle, and the point of the second Mystic Triangle. Uranus now solely holds the vertex of the second Mystic Triangle, and the end of the first Mystic Triangle. Then Jupiter holds the end of the second Mystic Triangle, and the Cradle. So, the big, powerful outer planets are holding the Cradle while the Planet of Transformation is leading the way. This means the Power of Transformation (Pluto), the Power of our Highest Goals, Hopes, and Dreams (Neptune), the Lightning Bolt of sudden, all encompassing Change (Uranus), and the power of Faith, Hope and Spirituality (Jupiter) are holding the Cradle. The big change from the Full Moon to the New Moon is that the Part of Fortune has now moved from conjunct Chiron to right between Saturn and the conjunction of Pallas Athena and Vesta. So, Good Fortune is placed right there with the Goddesses, encouraging Saturn to give up materialism and Return to Abundance.

Looking at the 13 moon calendar placement, we see that it is on Cosmic Moon 17 (kin 216) Yellow Galactic Warrior - I harmonize in order to question. This is very interesting because it's exactly 13 days before the Day Out of Time. The Galactic Tone of the New Moon day is the same as the Galactic Tone of Galactic New Year coming up. You might also notice that it is a Yellow Warrior day. And the Full Moon was in the Yellow Warrior Wavespell. The Yellow Warrior energy is in play for both the Full Moon and the New Moon. The essence of using our Intelligence to Question the paradigm that we're living in, is truly accentuated in these Moons and in the Cosmic Moon of the calendar. Another interesting synchronicity about the New Moon is that it is in the Red Moon Wavespell. This is the Wavespell of Purification. The New Moon is the Galactic Tone of the Red Moon Wavespell. So, the Tone of the day and the Wavespell reflects the energy of Galactic New Year. Because Galactic New Year is Red Galactic Moon.

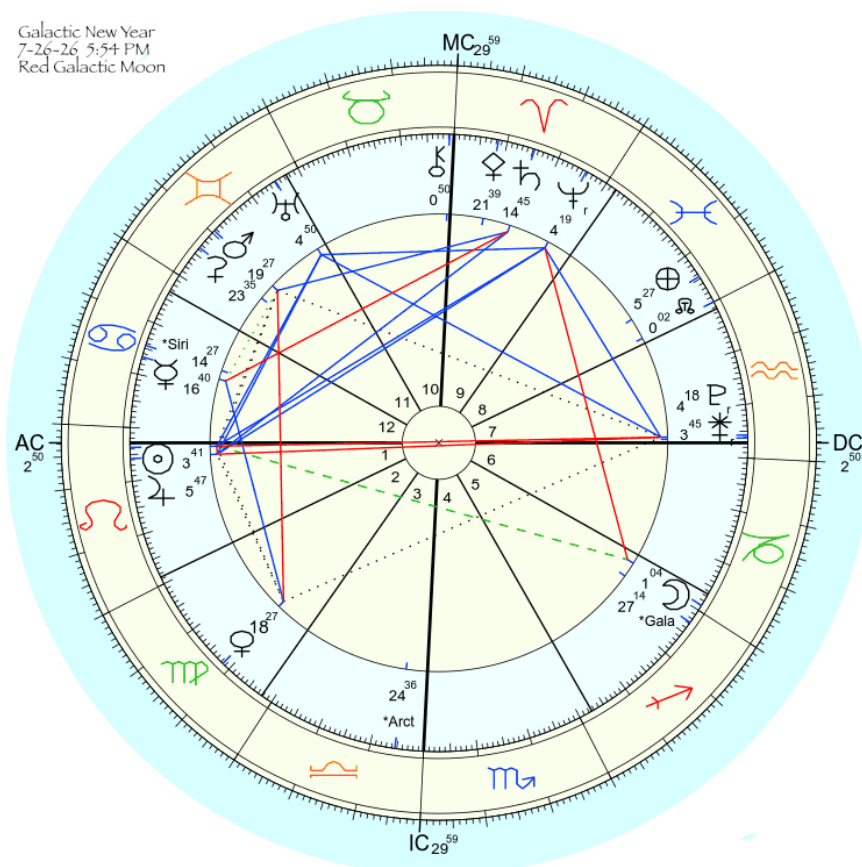

Now let's take a look at the end of the Calendar cycle. The Cradle returns again on the Day Out of Time and Galactic New Year's Day. The Day Out of Time occurs on July 25, 2026. And it is not included in the 13 moon calendar... Thus it is a Day Out of Time. But it is included in the Tzolkin, the Sacred calendar. It is Yellow Resonant Star (kin 228) - I channel in order to beautify... the Day Out of Time is the ending of the annual cycle and it involves letting go of the past to be able to move into the future. It is often celebrated with music, dance and

art which are designed to celebrate the movement into the future. I channel in order to beautify - exemplifies the Day Out of Time. This Day Out of Time also happens to fall within the White Wind Wavespell. This is the Wavespell of Communicating with Spirit, physically, emotionally, energetically, psychically and actually. Spirit is Communicating with us. We are Communicating our Spirit to each other. From that is born... Time is art!

At Sunset on the Day Out of Time the Sun sets conjunct Jupiter (the Power of Faith and Hope). This is extremely positive for a new outlook, a new attitude, a new sunrise, a new horizon, a new paradigm, a new civilization, a New World. The Cradle stretches from one horizon to the other. While the Sun is going down with Jupiter, it is holding the end of the Cradle. On the other horizon, Pluto and Juno are rising holding the front of the Cradle. All the planets except for Venus and the Moon are held within the Cradle. So, Venus and the Moon are in the sky at Sunset on the Day Out of Time. Venus is conjunct the Part of Fortune. The Planet of Love and the Purveyor of Luck and Good Fortune are right together. And the Moon is conjunct Galactic Center. The Moon, conjunct Galactic Center, and Venus conjunct the Part of Fortune forms a T square to

Mars, who is conjunct Ceres. This aspect of the Goddesses commands Mars to put down the sword and come into service of the Goddess. To add to the effect, Neptune is also squared off to the Moon conjunct Galactic Center. So, almost all the Goddesses are in play in that aspect.

When we move to the Dawn on Galactic New Year, it is July 26, 2026 and the Galactic Signature, as I said before, is Red Galactic Moon (kin 229) - I harmonize in order to purify. When the Sun rises conjunct Jupiter, it is the Dawning of a New World. The Cradle is spread across the sky. Pluto conjunct Ceres is going down in the west, the beginning, and the ending of the Cradle are touching the horizons at Dawn on Galactic New Year. This pours the blessings of the Cradle out onto the Earth, giving us... A New Life, a new paradigm, a new way of being. Living in Love, Harmony, Peace, Joy and Happiness, while the Moon is conjunct Galactic Center on Red Galactic Moon.

This is why I say, this story is written in the sky...

Randy Bruner / Cosmic Hand
