Supporting the Vision

This report aims to honor the celebrations of the timeless day marking the passage from the solar ring of the Yellow Resonant Seed 2025/26 toward the entrance to the solar ring 1.39 of the Red Galactic Moon 2026/27.

It is conceived to witness the artistic activities and to support for the vision that recognizes the 13 moons of 28 days as the new harmonic standard for counting time, enriched by the elegance of the Dreamspell and the galactic frequencies of the Tzolkin harmonic module.

These celebrations and gatherings are the largest of many, just like pillars of a larger mandala that, with loving intent, has radiated the 13:20 frequency.

They were generated joyfully and effortlessly, as if to testify the great excitement now present in Italy, which, although no longer having a single leader, relies on planetary Kin that, in resonance with the Noosphere, carry forward their planetary function, like a great weaving that allows a greater design to emerge.

It's difficult to convey all the beauty, the abundance, and the creativity at play in a small space, but between the lines you can certainly sense the desire to be together, to welcome every human being who answers the call, facilitating the connection between subtle energies and our presence on Earth.

Hoping that giving thanks to Water, every ceremony of universal forgiveness, may spread through our smiles, our hearts, our glances to create a unitary core of presence.

This year's Kin of the Day, Out of Time, coincided with the Kin of the Pleiades Center, Kin 228. It was a truly special year! The shared theme was Coherence, the integration and alignment between accepted spiritual values and daily practical action. This does not mean accumulating theoretical notions, but rather experiencing a process of profound inner metamorphosis. Coherence is harmony, in total agreement between what one perceives (spirit), what one thinks (mind), and what one does (body). True Coherence does not require absolute perfection, but rather the constant and honest will to correct one's steps every time gets distracted from his/her own center, the courage to show oneself for what one is, without wearing masks.

"Years ago, I participated in a out of time day without realizing its importance. Today, I have that emotion within me, and I just need to close my eyes to reconnect with everything that happened. All this is thanks to Alessandra's ability to create connections between all the participants, a group nourished by everyone's love. I have within me the words, expressions, and vibrations of all of us. We were there... each with our own power, and we could finally feel it! That out of time day showed us that we were in the right place to do everything.

I thank everyone for the magic that was created."

"July 25, 2026, Valle dei Progni (Fumane - Verona), an enchanted forest inhabited by invisible and wondrous creatures. Salamanders, bearers of sacred fire, dragonflies, trusted companions on the journey of transformation, and for those who can see and feel the magic of elves and fairies.

This valley, also called "Val Deaf," is imbued with the magic of silence, where the aforementioned creatures show themselves to the focused gazes of the aware participants.

For this reason, I chose the sacredness of this place as my meeting point. The entire day unfolded naturally, in a playful flow between the four operators, who, when combined with our birth kins, created Kin 72, a resonant yellow human.

Accompanied by synchronnauts from Verona city, Vicenza, Padua, and Negrar di Valpolicella, after opening the 7 directions, the Forgiveness ceremony, and the Blessing of the Water, I proposed To create a "spontaneous sound" circle using the instruments provided. Each person created a harmonious sound with the stream, and a dance and a natural rhythmic concert emerged.

What more can I say? Magic is here, Time is Art!"

Day Out of Time - Yellow Resonant Star

"Thank you to all the kin for the Art and Beauty that we are and that inspired us on this day."

A special day also for the twinning of PAN nodes, with SincronicaMente Pan Piemonte. After the opening, we printed a fabric with leaves that will accompany us throughout the year.

We went to the river to sing and play for the Water.

We looked at the oracle of the day and the New Year and the Wavespell of the White Wind.

We wrapped the Earth with the Rainbow Bridge and danced to the "intergalactic" songs sung in preview.

With the Tibetan Sword, we defined the Field and received Initiation.

All wrapped up in the frame of the Forest. Sharing.

And with the presence of our Advaita Earth Magician Sigrid, kin 128, who is a Living testimony.

Welcome to the Year of the Red Galactic Moon"

Toscana - Arezzo (Lucignano) c/o Porto X

From July 24th to 26th, 2026, Mars, Stefania Laila, Marifra, and Francesco organized and hosted special days in collaboration with the Porto X crew.

Three days of special encounters, art on the move, and celebration among trees and animals.

A large family increasingly recognized as a great synchronic movement that leads to the heart of oneself, then encounters and illuminates everything.

79 people gathered around the circle for the universal forgiveness ceremony and blessing of the waters.

Seeds of Light that begin to remember the flower they will become.

Beauty, simplicity, and authenticity.

*What remains in my heart after the Day Out of Time?
I look back at last Saturday and feel immense gratitude.
In the quiet of the Samsara Center, we celebrated the Day Out of Time.
Together, we welcomed the passage between the resonant yellow seed
and the red moon through a beautiful and engaging ceremony,
entering the new ring of the Galactic Red Moon.
On this day, a sacred space was created dedicated to Antonio, ever
present.
I carry in my heart the wonder of the beautiful flow of color generated
by bringing one's birth kin into the circle. The freedom of Movement
Medicine with HarmonicaShanti, where we danced and laughed, letting
go of the old cycle.
I saw faces become emotional in the intimate space of the Essential
Cards with Marta Mancini, until we merged into a single sacred silence
with the sound bath of bells and dijeridoo by Stefano Maria Crocelli
under the stars.
We dined, shared stories, and rediscovered the profound beauty of
being human. Thank you to each of you for bringing yours. unique
medicine in our circle. The journey has begun."*

Gregorian, July 25, 2026. After a site visit to Lake Avernus a few days earlier, since it was too hot, we decided to spend the day at my house.

We spent the entire day together from 10:00 am to 8:00 pm...

In the morning, after the opening of the Camp with the invocation of the Seven Directions, there were movement activities, music, and drawings of one's Birth Kin. After a shared lunch...

In the afternoon, Presentation of the New Synchronometer..

In memory of Antonio Giacchetti. Global Water Appreciation Day.

Red Queen Galactic New Year Healing Meditation. Rainbow Bridge Meditation.

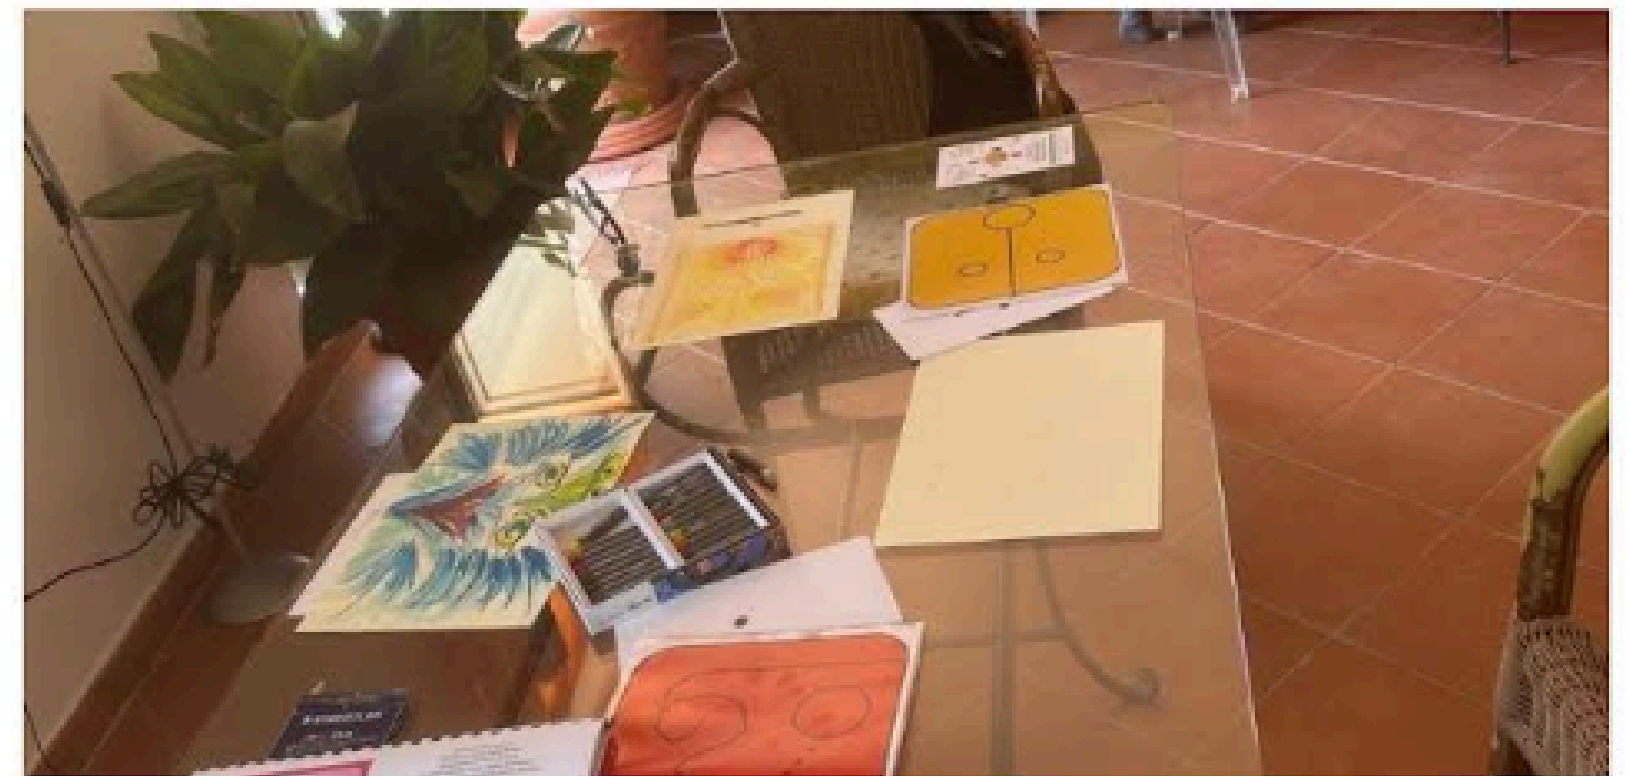

Water Thanksgiving Ceremony, remembering Masaru Emoto and his friendship with Master José Arguelles.

Gift of a small plant, symbolizing the germinated Seed.

In the evening, for those who remained, a home screening of the film "Another World" by Thomas Torelli.

When we were all there (13 + 1), we were kin 193... Red Wraithwalker, the kin of the Dedication of the Tomb of PACAL VOTAN."

"There are days that aren't measured by the clock, but by what they leave in the heart.

The Day Out of Time was one of them.

An event created by the PAN Salento Node and held in the spaces of the Alkimia APS Association, where we gathered in a circle to celebrate the time that belongs not to doing, but to being. We let go of what weighed down our journey through forgiveness, we gratefully honored the memory of Antonio Giacchetti, whose teachings live on in those who walk this path, and we energized the water, entrusting it with intentions of peace, love, and harmony, recognizing it as the bridge between heaven and earth.

The next day, we opened the new Solar Ring together, entering the frequency of the Galactic Red Moon. Through the workshop, we created and informed matter, remembering that every transformation begins first in consciousness and the heart, before manifesting in reality.

These two events represented a single journey: letting go of what belongs to the past and sowing, with presence and awareness, the intentions that will accompany the new cycle. A heartfelt thank you to all those who shared these moments with authenticity. Together we have created a field of listening, beauty, and transformation.

With gratitude to the Nodo PAN Salento, the Alkimia APS Association, and all those who continue to preserve and spread the path of the 13 Moons, the path of Peace through Culture and Art.

In Lak'ech – I am another you."
