RHYTHMIC SOLSTICE IN TEOTIHUACAN

NS1.36.6.9 Kin 62

How to identify a Call?

HISTORICALS RECORDS

I had a trip planned for an event that made me reflect whether to approach Mexico.

Mexico is the country very dear to my heart, since the first time I visited it in NS1.6 Kin 144, the first Ring of Prophecy. I was traveling with a friend expecting an adventurous trip, but it turns to be a magical and mythical trip, because it was there, in Merida I met Valum Votan for the first time. The trip was synchronized with a Telektonon Workshop in the courtyard of the Mayan House and if I remember correctly, it was the first one.

I do not remember exactly the date, but I do remember that it took place between the wavespell of Dragon and the wavespell of Wizard, since, at that time, I was already following the 13 Moon Synchronometer. Moreover, I remember painting on the plane the Synchronometer of that Ring that I was going to deliver to Valum Votan and Lloydine. And so, I did... what I could not imagine was their answer: "this is not a radial synchronometer!" It was similar to the current format used in many basic Synchronometers with four heptads per moon. That reaction was the reason I created 13lunas.net! I made an effort to make it radial! The Synchronometer we created has the same structure as the Galactic Compass. Now you know the real reason that led me to it.

Then I participated in the 7-day Earth Wizard Seminary in Meztitla, Mexico, when at the end of the Seminar an event held in Teotihuacan where he was named "Closer of the Cycle". It left an indelible trace in my memory, comprehending the power of the word "presence".

Also, from the Seminary in Donostia/San Sebastian, where it was possible to visualize that this ring marked the frame of 7 Rings in the retroactive count, from NS1.18.6.9 Kin 252 to the Closing of the Cycle in NS1.25 Kin 207.

There, in Teotihuacan was opened the first of the 7 Tollan Caves, the Crystal Cave, of a 7-Ring cycle. Another event celebrated in Teotihuacan was of the Closer of the Cycle with Valum Votan and the Red Queen present.

We are going to transcribe 2 stories related to the Solar Equinox and Teotihuacan

Dali 15 of the Solar Moon, Kin 252 (21/03/1968) "**REGINA**" **Solar Equinox**.

Central Family - Psi Chrono: Kin 177

On 3/21/1968, Regina summons some followers to make a ceremony in Teotihuacan, precisely in that place inside the archaeological monument. The way Velasco Piña describes it in the book is only possible if he had access, besides a preconceived idea in his previous novel, to recreate that sublime moment in which the protagonist performs a ritual dance.

The description of the place is as follows: you must descend six meters into the basement at the beginning of the tunnel. It is necessary to use a helmet and lamp, since there are parts that are of little height, and it is also possible to lose the notion of space. The tunnel has a length of almost one hundred and three meters, culminating in a small square that has four hollows (which simulate the Teotihuacan flower, a well-known symbol). It is precisely in that small square where the author assures that Regina did the dance. That space is almost in the vertex of the basement.

NS1.2.9.15 Kin 222 (03/21/1990) - An interval of 22 Rings between both ceremonies of the **Solar Equinox** - Central Family - Psi Chrono: Kin 177

In "The Awakening of Teotihuacan", Velasco Piña also makes some interesting sections to relate that visit made by the Dalai Lama in 1989, and adds the account of an event on 03/21/1990, in which Lama monks participate, to remove what the author calls "the seals", which seems to me a very interesting topic regarding the similarities and connections between Andean cultures, Mesoamerican cultures and Tibetan cultures.

The place to which I refer and that has restricted access, is the tunnel that is under the Basement of Sun (Pyramid of the Sun).

NS1.18.6.9 Kin 252 (12/21/2005) – **Rythmic Solstice**. Notice that this Galactic Signature is the same of Regina's Ceremony (Central Family) - Psi Chrono: Kin 99

Valum Votan summons in Teotihuacan a 7-Ring Retroactive Counting Ceremony before the Closing of the Cycle, opening the first of the 7 Caves of Tollan, which begins with the Crystal Cave in which we entered.

As a culmination of the ceremony, "The Purification of the Fifth Sun," a planetary rite of initiation, the Initiation of the Seven Caves of Tollan-Zuvuya, was performed for the gestation during seven Rings of the new human, the homo noosfericus. This ceremony took place at the top of the Pyramid of the Sun, that is, at the top of the cavern of the

"Initiates Serpent of Wisdom" that is under the pyramid. In Nahuatl, these seven caves are known as Chicomoztoc, the seven caves of origin or gestation. These are also the caves of emergence and return. The number seven refers to the seven primary clans of origin, those in whom is the remembrance of the original order of the universe.

"The consciousness separated from attachment to this body."

In the Crystal Cave receive the initiation of the crystal serpent in your third eye. Be empowered by the knowledge of the terma (hidden treasure teaching) of the universal hologram.

By the power of the crystal, may you be realized as the embodiment of the Universal Hologram of Cosmic Consciousness (Gama).

NS1.36.6.9 / Kin 62 (12/21/2023) – Rythmick Solstice: Interval of 18 Rings between the 2 Solstices – in total 55 (11x5) Rings of Interval. Central Family. Psi Chrono Units: Kin 99

13Lunas.net with the support of some Planetary Kin of Mexico, sends a call to meet in the 11th Solar Return of the Closing of the Great Cycle in Teotihuacan, as an Emergency Call.

With so much information recreated and the memory contained and impregnated in Teotihuacan, from the previous Equinoxes and Solstices already summoned, knowing that the same date 11 Rings later I was going to be in Mexico (11= Monkey, in the Monkey Bioregion), I felt the Call and the Urgency to emphasize that Closing of the Cycle; to seal it so that the Second Creation could begin to manifest consciously.

It was here that Agency-21 made the decision to replicate the Call through a particular summons, for all who resonated with the Call. There was no time to ask for permissions. This pulse took such intensity that it even reached the two Sacred Volcanoes of Mexico.

PROCESS OF THE CALL

We spent a few days in Puerto Morelos, a small town where Votan and Lloydine were also living for a while, while preparing the Telekonon.

*"In NS1.7.1.13 KIN 1 (1994), we were living in a small Mayan hut in Puerto Morelos, where the scorpions visited me, I began to write a little book called: Booklet of Practical Conduct of the Magicians of the Earth. It says **"The Guide of Every Human Being to Restore the Earth and Establish the Kingdom of Heaven on Earth"**. Of course, there were some visions and precepts to follow."*

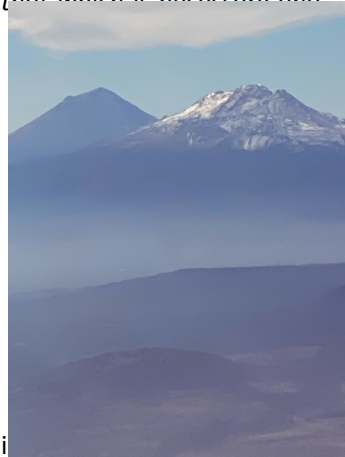

He says: *"The Two Laws of the Wizard's Code of Ethical Conduct:*

"1) You always get what you need. No more, no less. Exactly when you need it. (Try to live this way, and you will find it to be true).

2) Always do what you must do for you, exactly when you need to do it. Therefore: Do always or say only that which is necessary and nothing more."

Evidently Valum Votan has been very present these days, as well as many Kin who have come and confirmed the Call from the other dimension. This process began the moment we arrived in Mexico City.

The first thing was to greet friends and kin that I only knew through the network, but who have shown commitment to the Foundation for the Law of Time, something necessary at this time when many Kin are creating and seeking only to i... al network. Many emotional and very enriching contacts, honoring those absent and celebrating those present kin.

Thus the first, so to speak, unifying bubble was created.

So, the first "bubble" made contact the day after our arrival: 3 Kin that we had connected in the 4D, and we had not yet activated in the 3D. The time had come to do so, resulting in an impressive team.

Evidently the Call was personal, we were not looking to add for the sake of adding. We only wished each kin would feel the call and be present for all that "must be done".

PREPARATION:

NS1.36.6.6 KIN 59 (signing of the Closing of the Cycle Ring).

Whenever I have traveled to Mexico City, I have visited the house where Regina lived her last moons, and this time it was not going to be less. An excursion to the volcanoes to the area of the "Village of the Kings", where Regina was born, had been arranged by Kin 206, because he wanted us to know that environment and also to meet the guardian of the volcanoes. We already had an appointment with him.

So, we visited Regina's house in Mexico City, whose guardian is the sister of D. Antonio Velasco Piña. After one short meditation we ended up eating sweet meringues (made of egg white) that she prepares with so much love, and from there we left to the Village of the Kings.

When we arrived, we saw the house where Regina was born, although we could not enter because her guardian was not there, so we paid a visit to Olga, with whom we had lunch in the village and then we went to the appointment with the guardian of the volcanoes. And there he was in his hairdresser's cutting the hair of the last client.

While he was finishing, he asked us to look at the images and objects he had in his salon. There were images of volcanoes, a sword, an Olmec head (I learnt there that those Olmec heads are computers; if you place yourself in front of the head that has your code, it transmits to you all the information you need).

After a beautiful talk with him, he revealed two dreams he had had these days. In one, a woman appeared urging him to go to Teotihuacan for the Solstice. The next dream was also with a woman, but with two children, repeating the same message, to go to Teotihuacan for the Solstice. Astonished, I commented to him: "We are the ones who are making the call for the Solstice in Teotihuacan".

My mind began to interact with this surprising information that he heard our call, confirming the need and urgency to do so.

Moreover, among the different anecdotes he told us, he also revealed that the volcano Iztaccihuatl had 11 wet nurses, also linking that 11 with the 11th anniversary of the Closing of the Cycle. Everything was taking shape. So we saw how necessary was to have passed through the Village of the Kings (note the connection with The Valley of the Kings in Egypt). As we felt that we were also creating a bridge of connection between both places. The meeting point was Teotihuacan, a pyramid that has a base similar to the pyramid of Cheops.

Everything was acquiring a magical and mythical tone.

We said goodbye until the next meeting at Teotihuacan.

The permission of the volcanoes had been granted. The volcano full of snow with the touch of pink was impressive.

NS1.36.6.7-8: Kin 60 – 61

The next day we left for Teotihuacan. We had decided to arrive earlier to prepare and interact with the place. It could not have been more appropriate as everything was coming together. We had a person who had to show us the Teotihuacan beyond the

ordinary tourist visit. We had to go through as many places as possible to impregnate them and recover all the memories of the Closing of the Cycle contained in that place.

We had among us Kin 206, kin of the day before the Closing of the Cycle, the one we were going to invoke and seal, so we can begin to feel and live the Second Creation. To clean the ground so that it would be ready for planting and creating this present future of the Second Creation on the planet.

We also had the presence of Kin 62 encoding that day. The scenery was being shaped and created.

This recognition of the place was impressive.

And the moment arrived: Kin from different places in Mexico started to arrive. We filled the hotel where we were staying... where we could breathe the 13:20 frequency.

That night we had a special date... In a special place That gave us the awareness that IT WAS A COSMIC APPOINTMENT. Orion was positioned exactly on the top of the Pyramid of the Sun.

What happened in that appointment, we who were present will be able to keep it in our hearts, in our souls, because it was not just any appointment. It was a cosmic reunion or a repetition of another moment in a past or future time.

Here is when words fall short to define what we experienced, but we had already perceived that this energy and the calls do not need mails or social networks... they travel without borders so that whoever feels it can appear, just as it happened in the Harmonic Convergence. It is only necessary presence and generosity to "lend" our presence so that what must be done is done and that created energy elevates the

MIC SOLSTICE IN TEOTIHUACAN

In the morning we had met early in the courtyard of the hotel to make the Prayer to the 7 Directions and there the sky appeared covered with hot air balloons celebrating the Kin 62 in its galactic return, hehe We did it this way, because we didn't have permission to carry or to perform in Teotihuacan, so we went with

our souls full and ceremonially dressed, even though we looked more like simple tourists.

When we arrived at Teotihuacan, as we closed our car door, the car that positioned itself next to us closed its doors as well... and then we realized that it was the guardian of the volcanoes and that we had arrived at the rendezvous in a unison rhythm and in the same now... A Cosmic Rendezvous, it is said.

We were ready. We arrived at the place of the appointment and we could already see people and groups of people waiting for the call to which they were joining.

We began the walk along the Roadway of the Dead, led by the guardian of the volcanoes. His words were my words and my thoughts, words directed from a cosmic tone of reunification, of awakening, of action, of liberation, of assuming our reality, of presence, of becoming aware that each one of us can make a whole, so that everything can be given and done, in brief...of commitment. That was the energy that had to be created and spread from Teotihuacan, through the 7 Directions, so that it would radiate and reach all the places of the planet. We were invoking in each altar, cleaning our karmas and creating the preparation of our physical, spiritual and mental bodies in all the dimensions in which we are living.

When we arrived at the pyramid of the Sun, where all the ceremonies with José Argüelles had been activated in the past for the present, we were without mind, without expectations, just affirming that we were conscious.

We didn't have any problem, although we had no permissions, nor did anyone stop us from doing anything we did. We became invisible to the 3D, because we were in the 4D.

We closed the ceremony right there, at the base of the Pyramid of the Sun with the Prayer to the 7 Galactic directions. At the end we looked at the Sun and a Solar Halo was sealing that what had to be done had been done. Our face of happiness was at its peak. Our souls were saturated with unconditional love.

What we did not know is that 11 days later the Earth would open its jaws again in a place where 13 rings before it had opened them, in Japan. In the same Wavespell of the World Bridger, and both on dates close to the Solstice and Equinox. The Worldbridger in the Planetary Holon corresponds to the Bioregion of Japan. This could not be coincidence.

GENESIS 9:

¹¹ "This is my covenant with you: never again shall all living creatures be exterminated by the waters of a flood; never again shall there be a flood to destroy the earth."

¹⁶ *"Whenever the rainbow appears among the clouds, I will see it and remember the covenant I made forever with all the living creatures on Earth."*

I go to Wikipedia and read:

Japan is the 11th overpopulated country on the planet.

Japan: The Land of the Rising Sun.

Teotihuacan: City of the Sun

Egypt: Ra, God of the Sun

To all of you who felt and responded to the Call, we thank you for helping to expand and for having a free and open mind to hear it. We really don't need neither social networks nor mails... the Calls go directly to the heart and mind of the open and free people.
