

AGENCY:21 "THE CODE 19 IN THE 441 MATRIX"

"By focusing on Number, you will be led to a Higher Truth and a Powerful Description of Nature and Time. Understand Number and Mathematics so you can see the Higher Level of how GOD's Creation emanates from what we call Number into Manifestation and then into Language and Words." –Dr. José Argüelles/Valum Votan

At present, human beings are already aware of some of the underlying mathematical patterns in the "material reality" they inhabit. An example of this is the sacred geometry that orders the internal structure of biology itself in nature, an order on which the entire process of growth and development of biological agents is based. This knowledge allows us to expand our awareness of both the individual and collective existential factors, as these patterns show us that behind or within the processes of life, there is a "higher intelligence" that organizes everything in the cosmos. Thanks to the Law of Time, we can expand this consciousness to levels never seen before, as its entire system is based on and intrinsically related to this higher intelligence or God.

One of the most curious revelations, numerologically speaking, that Dr. José Argüelles/Valum Votan has shared with us, is related to the number 19, which links the Koran with the Law of Time. Since both the Book of the Koran and the Law of Time have a common numerical language, the links between them can be found. The key numbers in the Qur'an are 19 and 7, which are also key numbers in the Law of Time and other teachings. The Qur'an was revealed to the Prophet Muhammad over a period of 23 years (rings), interestingly Muhammad was a contemporary of Pacal Votan.

The Quran contains 114 Suras (19×6 , Kin 19 is written 19.6) and the number of Ayahs is 6346 [$6+3+4+6=19$], which is 19×334 . Few know that the Quran is a book clearly structured around this key number, around which the letters, words, phrases, Ayahs, and the Suras or chapters revolve.

There are numerous documents to explore and many threads of knowledge to follow, all interconnected so that the mathematical origins of the Qur'an can be known in this life. Initially, Valum Votan had already defined the 0-19 coding for the Solar Seals in his book *The Mayan Factor*. Mother Tynetta Muhammad, while in Egypt in August 1987, received a pamphlet on Harmonic Convergence and went to meditate in the Great Pyramid. Shortly after, she discovered *The Mayan Factor* and became intrigued by the code 0-19. This was why Mother Tynetta, wife of the Honorable Elijah Muhammad, who taught that Islam is mathematical, sought out Votan to show him the research that had been done by Rashad Khalifa, the person who discovered that the number 19 was in charge of the internal structure of the Quran.

This code was integrated and defined by Valum Votan in the “pure” Diagonal 19 within the Harmonic Module, specifically in the Tzolkin Matrix, which goes from Kin 19 to Kin 247 (19x13).

Something key about this diagonal is that its 11th step is coded by Kin 209, the same Galactic Signature that coded the Ring NS1.19 when the Matrix Code 441 was revealed to Valum Votan on Moon 7: once again 19 and 7!!! **Kin 209 will always encode Ring number 19 in the 52-Ring cycle of the NS account.** Notably, also in the NS1.23 Ring (Year 2010/2011), in the 23rd Harmonic and on 03/23/2011, was when he transcended this plane and Pakal Votan was born... Pakal Votan's Birth Ring is Kin 209, which encodes -NS27.19 (602/603 BC), and his Solar Return (birth day) is 241 of the Ring, which encodes UMB 19 (63 Matrix), the same Heptad Gate through which Jose Arguelles left his three-dimensional form.

The Matrix 441 allows us to incorporate multiple numbers into it, and even the structure itself has defined a diagonal that goes from V19 to H19, containing 19 units. Here is where the astonishment comes again: this diagonal starts in UMB 59 and ends in 23. The Quran was revealed during 23 rings, 23 is the cycle of sunspots, and 23 is the last multiple of 19 within 441. The sum of these digits ($5+9+2+3=19$) kept confirming this connection. Placing the 23 units/multiples in the 441, we see that we have units in all circuits. It is also synchronous that 59 as Kin is written 19.7.

Once the diagonal is drawn and the multiples are incorporated, we see that we have 3 units in this diagonal, multiples of 7, 9, and 23: 133, 171, and its central point, the UMB 437, the 1st Station of the Ark in the Holomental Perceiver; there is Abraham, Archetype Messenger of the progenitor of UR. Now let us add $4+3+7=14$. The 14th Sura, called “Abraham,” contains 52 Ayahs - 52: Sirius Code in the Law of Time.

Note also that in the 21 Layers of Intergalactic Consciousness of the Universal Cube, both Kin 59 and Kin 23 complete the Planes of the World Changer and the Dreamer. Both Planes occupy the 3rd position of the Universal Cube, seeing it in ascent and descent. Kin 59 encodes the unit 8379 which is 441×19 . This unit also contains the synodic cycle of Jupiter 399×21 ; UMB 399 encodes the Hyperparton KUM, which is also a 19×21 cycle and is even written in vigesimal notation 19.19. It seems that there is still much to be explored...

There is also an interesting point that occurs in this Matrix, and that is that in the first 9 units, its reading follows a vertical sequence (Galactic Maya) and the rest follows a horizontal sequence from right to left like the Arabic script or the Syriac alphabet. In the Synchronometer of the Ring 1.37, in the new Tollan Matrix - see page 15 - the H19/V1 coordinates encode Kin 19, which for us is another synchronous code that confirms that the 19x19 Diagonal in the 441 Base Matrix has much more information.

In this map are placed the 23 units of the multiples of 19

($19 \times 23 = 437$ being 23 units in total)

($4+3+7+2+3=19$) Just the UMB where Diagonal 19 ends.

The diagonal itself contains 3 units of the 19, $19 \times 7 = 133 - 19 \times 9 = 171 - 19 \times 23 = 437$

There are units in all circuits.

● Diagonal 19x19 Central Unit. 1st Station of the Ark

These were "some of the prophets whom Allah has blessed from among the descendants of Adam, and from those whom We took with Noah in the Ark, and from the descendants of Abraham and Israel, and from those whom We guided and chose rightly." Every time the revelations of the Compassionate One were recited to them, they fell prostrate weeping. —————Sura 19:58

This initial Report is part of an ongoing Investigation. Agent:M (Mertxe Zuza, Kin 259) and Agent:K (Kin 209) / Base:Ü Galactic Research from 13Lunas.NET
