## Introduction

Welcome Interdimensional shifters and new time surfers to Volume Zero of the Galactic Times: the Illusory eZine from Other Worlds. Since this is illusory another volume may or may not appear.

In fact, nothing is as it appears anyway.

We communicate with you in this format, subliminally, far beyond the words and images that you see. We speak from the place beyond the fourth dimension, which is our common mental reality. You might say that “we” are “you” after the shift.

We felt it was our duty to investigate, explore and communicate to you what we are all coming to realize: the fourth dimension is a cube! See our cover story with Dor Jar El for more about this.

The Galactic Times comes now as a reminder of your multidimensional origin. All dimensions are being upgraded. The trick is to shift your consciousness back into the fourth- and fifth-dimensional levels of operation.

Sure, it appears that this blue planet is still turning around, making a circle around the Sun—but the shift into the fourth dimension will literally change everything about the way we think, know, and do things. When we say “shift” what we really mean is “return”, a return to your true origins.

Simultaneously we are there and here. This shift is happening to us all together all at once. Stay open to the reinterpretation of your reality. Art, music and number are the highest means and most universal way we know to communicate with you.

Your third-dimensional reality is exhausted ... you are being invited into the Galactic Community. The Rainbow Bridge is the interdimensional bridge that opens the star gate to other realities. You can read more about that in this edition, which includes an exclusive interview with Valum Votan, before his transfer to other dimensions.

We reach to you from across the dimensions. Come take our hand and let's explore new mentation waves and transmissions being streamed from the living Cosmic History core—the reformulation of the human mind into the emerging galactic culture.

Stay focused on the future world that is now being phased in... it is far more miraculous than you can imagine! Enjoy this issue, and any thoughts you have on it let us know.

## Advice for Earthlings from another Star System

The Galactic Times caught up with ZoX and ZuM in a telepathic Martian chat room while they were holidaying on the Red Planet via a teleportation exchange program facilitated by their home planet Asalyaa in the constellation Oratio.

While vacationing in Mars they had the Opportunity to catch up on scenes from Velatropa 24.3 through their telecosmic transceiver crystals. Their response was both shock and amusements as they became fixated on the male/female dynamic on this curious planet.

We asked ZuM what advice she had for women on V.24.3; here is what she said:

“O’ Divine Feminine Creatix!—Break out of the matrix!  
Break the cycle; break the mold  
All that glitters is not gold!”

We then asked ZoX his advice for both men and women of the V.24.3. Here is what he said:

“To be a Divine Male Hero—  
dissolve yourself to Zero!

But how to make the Zero turn  
is the lesson that the Heroine must learn!”

STUDIES REVEAL THAT  
**CUBOLOGY**  
IS THE SCIENCE OF THE  
FOURTH DIMENSION

**By Dor Jar El**

*Science correspondent for New Earth*

A long time ago when Minkowski and Einstein were declaring that time was the fourth dimension, it was hard to figure out what they were talking about. That's because just about everybody's head was locked into a device called "the clock."

It's hard to think of time as the fourth dimension when your brain is telling you that time is the tick tock precision of a mechanical clock. Well now that the shift has occurred for us on our "alternate" Earth, and the "smash the clock movement" has run its course, our heads are free to experience the new reality of the New Time.

The fourth dimension is not a clock, it's a Cube!

"Roll over Minkowski, tell Einstein the news since the clocks have stopped ticking we ain't got the blues." We are all familiar with that refrain from the famous hit song "Cube My Time" by the New Riders and the Purple Ray.

But last heptad, the Scientific Union of the Noosphere World Assembly announced at the conclusion of their first annual gathering that "Cubology is now the name given to the comprehensive science of the fourth dimension."

The aim of this new science is to empower all humanity into becoming "scientists of their own reality!"

"It stands to reason", said the Head Commissioner of the Scientist Union, Spectral Eagle Feather, "Since we are all commonly having the "Cube experience" we can each study and explore this experience on our own. This study we call Cubology. All we mean to do is to establish certain guidelines that will help anyone who cares to become a cubologist to do so.

Among these guidelines published in a broadside that will be posted worldwide, are the following: "How many experiences of radial simultaneity do you experience each day? When are these most likely to occur? Is the subsequent cube experience purely optical or do other sensory qualities define it?"

We think that with such guidelines as these, the science of the fourth-dimensional cubology will rapidly grow in numbers of new time scientists—it's all in the Cube, ya know.

## AN ELECTRIFYING TALE OF COSMIC MORPH

Before the shift I worked at a popular grocery store in Germany. I was a checkout girl. I really had no worldly ambition and was always looking for my place in the world. I knew something big was coming and that this world was not as it appeared. Most of my family and friends wanted to hear nothing of this. Though they could feel something was changing – but their response was to frantically stock up on more and more goods.

I was at work the day my world changed. At first, I felt something strange – a surreal type of wobbly feeling. The shoppers didn't seem to notice anything at first. Then all of a sudden all of the shopping carts (or trolleys) just disappeared – food seemed to erase from the shelves. People began to panic and scream as the world seemed to be dissolving before our very eyes.

It was a very strange feeling, but I was not all that surprised – until – one by one the shoppers began to disappear – just vanish – as though they were part of a drawing that was being erased. Suddenly I felt I was in some sort of vortex. Everything was spinning. I lay down and closed my eyes and repeated my preparation mantra: “Peace, be still: I am Love.” Then everything went black.

I woke up alone and naked on what appeared beautiful virgin land, warm and lush. I understood that I was placed there to regenerate and re-learn the basics of galactic culture that I had forgotten during my sojourn into the world of artificial time. I felt every cell of my being was being regenerated, as was my mind. “Be ye renewed by the renewing of your mind,” my beloved brother Jesus said that. He knew all about this.

I saw lifetimes flash before me. The world of appearance was all the same – a montage of shifting timespaces and kaleidoscopic cycles that repeat until the center is reached.

After a peaceful period of utter regeneration, a ship with rainbow lights appeared and I met ALORA who guided me back to my home star for a celebrated reunion with my cosmic brothers and sisters.

## New Roles Assigned after the "Shift", also known as the Great Return RETURN = FUTURE

After the dimensional shift and return of the original order, the Higher Collective Voice assigned all dedicated workers an upgraded role on behalf of the creation of Planet Art into the Interplanetary Art Network.

For example, in the final days of the artificial 12:60 Earth system, Kathy Downs was a stressed-out single mother working as a bookkeeper at a busy law office in a New York skyscraper. Now she is living the life of her dreams as Atrina Archaya, a seasoned interdimensional traveler responsible for indexing planetary archetypes throughout different world systems.

Before the shift, Sir Stellar Dunes was Delbert McGoo, a homeless musician busking on the streets of city financial districts. Now he is a Cube Harmonic sound engineer freelancing in various star systems.

Before the shift, Miss Coloria Elektra was known as Mary Smith: a desperately unhappy housewife with chronic fatigue syndrome. Now she is a seventh ray color projectionist beaming inspiration into the minds of depressed beings in earlier world systems.

Before the shift, Adromo Cubista, was Ricardo Fernandez, a penniless alcoholic cubist painter. Now he has become his painting and also works at creating Galactic Haikus with the ratio 4:7::7:13 also known as galactic txt messages.

## 4:7::7:13 texts

**Androma Cubista** shares a few of his Galactic txts. Their precise mathematical measure is channeled into the minds back in time to receptive earthlings in need of harmonic balance: Four syllables; seven syllables; seven syllables; thirteen syllables.

*Under blue skies  
Earth turns inexorably  
But who notices her spin?  
Someday a mind large enough to know will comprehend.*

*Invent the world?  
Why not? This one is too old?  
Radiogenetic man  
Rises from the television spell wrapped in stardust.*

*Contemplation  
The wizard's way is free form  
One deep breath is memory  
Movement of the cosmic loom recalls her inner name*

The reality of the radius of seven is the reality of thirteen  
 $1 + 2 + 3 + 4 + 5 + 6 + 7 + 8 + 9 + 10 + 11 + 12 + 13 = 91 = 13 \times 7$

Greetings Dear Ones, I am

# E-PA

Evolutionary Particle Activator

I am here to assist in the synthesis of galactic frequencies into both the individual and collective biopsychoelectrical circuitry. Should you need any of my services, merely tap your cosmic ascension channel on the back left of your head and recite my name three times: E-PA, E-PA, E-PA. I am at your service.

## E-PA's Services:

- Find out your index of potency.
- Discover the underlying, primordial structures that appear as your formative world.
- Liberate luminous electrical charges from your 7 generators.
- Discover how your energy system is participating in the most fundamental base parton experiment that has existed from beginningless time.

**Have a question that you would like E-PA to answer? Formulate your question and then send it through your ninth-dimensional inner core channel and it is sure to reach her.**

# Ask E-PA

Dear E-PA,

Christmas is over, but I decided to contribute my memory of a bad Christmas present. When I was about 7, my father placed a very heavy and elaborately wrapped package under the tree. It was for my mother. Inside was a hammer, a pair of work gloves, a small velvet flip-top box and bricks. Inside the box was a note that read “I lost my job. We are going to move back to my hometown. I have bought a house for us to rehab. I love you.” It put a stop to the Christmas celebration and started the fight of the century. What is your advice?

Sincerely,  
Mary Holiday

**E-PA:** Oh for heaven’s sake...next!!!

**Dear E-PA:** I am currently incarnated as a human on Earth. Though I have to say I have never quite gotten used to this space suit. I wonder if you could tell me what is a human from your perspective?

Sincerely,  
Allen, the unsuitable Alien

**E-PA:** Dear Allen. Thank you for your question. The human is an energetic transduction chip in a vast but highly formalized process of psychocosmic electrodynamics.

This means that what appears as your physical body is actually an energy conductor. Until that is finally understood the human will continue to falter on the ascent to cosmic consciousness.

**Allen:** Wow that sounds intense. I don’t want to falter. What should I do, change my diet?

**E-PA:** Perhaps this would be beneficial. If you are sincere we advise you to abstain from all processed foods and animal products.

**Allen:** But there will be nothing left to eat! If I don’t eat meat, I’ll starve!

**E-PA:** The vibration of your response is exhibiting fear-based programming that is magnified through ingesting dead flesh, which proliferates aggression and fear-based animal vibration within the human organism. These are the facts. Once the cellular programs maintaining the fictions of the historical cycle are no longer being fed because one is no longer eating processed food and ingesting dead flesh, then a veil is lifted within the consciousness. Beneath or behind this veil is a vast reservoir of untapped energy.

**Allen:** So what should I eat?

**E-PA:** I am not qualified to answer this: please defer this question to the nutritional experts: By-Ta Fruit and E-da Rainbow.

**Allen:** OK, thank you. But E-PA what else do I need to know?

**E-PA:** You must listen of the new voices of the mystery otherwise you cannot hear straight messages. This is all I can tell you for now. Goodbye.

# Rainbow Bridge Meditation

Before the meditation it is good to take a few moments to clear your mind, dissolving all thoughts as they arise. Also focus on feeling love arise in your heart. When you feel your mind clear, then begin the visualization.

Visualize yourself inside the Earth's octahedron crystal core. Feel your heart at the center of this crystal core generating an intensely blazing point of white light.

This light from your heart core creates an etheric column that extends to the North and South poles from the blazing center to the tips of the octahedron.

Now visualize a great stream of multicolored plasma-filled light emanating from your heart core and flowing along the central axis toward both of Earth's poles, shooting out from them, to become two rainbow bands 180 degrees apart.

As Earth revolves on its axis, this rainbow bridge remains steady and constant, unmoving. Feel the two streams of rainbow light rushing through your central column, shooting out from above your head and beneath your feet to create a rainbow bridge around your body.

Now you and the rainbow bridge are one. The rainbow bridge of world peace is real. Visualized by enough people in a telepathic wave of love the rainbow bridge will become a reality.
